

California State MSA Price List for Document Management and Imaging Software, and Services

Updated Oct 1, 2007

NEKO Product Pricing

Products Included:

Hyland OnBase
Kofax Products
Laserfiche
Cardiff Teleform
Legato
NEKO Products and Services

Hyland OnBase Licensing

License & Service Fee Schedule

Product / Module Name	Product Code	License Fee	Detail
SERVER MODULES			
Multi-User Server	OBIPW1	\$ 5,000.00	
CLIENT MODULES			
Concurrent Client	CTIPC1	\$ 1,200.00	Each, for Qty 1-100
	CTIPC2	\$ 1,000.00	Each, for Qty 101-200
	CTIPC3	\$ 800.00	Each, for Qty 201+
Workstation Client	CTIPW1	\$ 600.00	Each, for Qty 1-100
	CTIPW2	\$ 500.00	Each, for Qty 101-200
	CTIPW3	\$ 400.00	Each, for Qty 201+
Named User Client	CTIPN1	\$ 600.00	Each, for Qty 1-100
	CTIPN2	\$ 500.00	Each, for Qty 101-200
	CTIPN3	\$ 400.00	Each, for Qty 201+
IMAGING AND CAPTURE			
Document Imaging			
Production Document Imaging (Kofax or TWAIN)	DIIPW1	\$ 5,000.00	For the first
	DIIPW2	\$ 2,000.00	For the second and beyond
Production Document Imaging (ISIS or TWAIN)	ISIPW1	\$ 5,000.00	For the first
	ISIPW2	\$ 2,000.00	For the second and beyond
Disconnected Scanning	DSIPW1	\$ 5,000.00	For the first
	DSIPW2	\$ 2,000.00	For the second and beyond
Desktop Document Imaging	AIIPW1	\$ 500.00	For <= 15 pages per minute
	AIIPW2	\$ 1,000.00	For <= 30 pages per minute
	AIIPW3	\$ 1,500.00	For >30 pages per minute
Web Scanning Named User	WSIPN1	\$ 500.00	
Front Office Scanning	FOIPW1	\$ 1,000.00	
Other Imaging and Capture Modules			
Batch OCR	OCIPW1	\$ 1,500.00	
Ad-hoc Document OCR	AOIPW1	\$ 500.00	
Virtual Print Driver	PTIPC1	\$ 5,000.00	
Signature Pad Interface (TWAIN)	PWIP1	\$ 6,000.00	
Bar Code Generator	BCIP1	\$ 2,000.00	
Merchant Capture	MTIP1	\$ 10,000.00	
Image-Only Modules			
Image-Only Multi-User Server	ELIPI2	\$ 2,000.00	
Image-Only Concurrent Client	ELIPC2	\$ 600.00	Each
Image-Only Workstation Client	ELIPW2	\$ 300.00	Each
Image-Only Named User Client	ELIPN2	\$ 300.00	Each
IMPORT PROCESSING			
COLD/ERM and Import Processors			
COLD/ERM	CLIPW1	\$ 10,000.00	
Advanced COLD/ERM	ACIPW1	\$ 35,000.00	
PCL Input Filter	PCIPW1	\$ 3,000.00	
AFP Input Filter	AFIPW1	\$ 10,000.00	
DJDE Input Filter	DJIPW1	\$ 5,000.00	
PDF Input Filter	PIIPW1	\$ 7,500.00	
Document Import Processor	DPIPW1	\$ 5,000.00	
Advanced Document Import Processor	ADIPW1	\$ 20,000.00	
XML Tag Import Processor	XMIPW1	\$ 7,000.00	
Remittance Processor	RPIPW1	\$ 20,000.00	

Directory Import Processor	TYIP1	\$ 5,000.00	
COLD/ERM-Only Modules			
COLD/ERM-Only Multi-User Server	ELIP1	\$ 2,000.00	
COLD/ERM-Only Concurrent Client	ELIPC1	\$ 600.00	Each
COLD/ERM-Only Workstation Client	ELIPW1	\$ 300.00	Each
COLD/ERM-Only Named User Client	ELIPN1	\$ 300.00	Each
Other Import Processing Modules			
132 Column Font	FOIP1	\$ 2,000.00	For 1-100 Workstations
	FOIP2	\$ 5,000.00	For 101+ Workstations
Conversion Tool for IXOS	IXIP1	\$ 10,000.00	No maintenance.
Conversion Tool for Ricoh eCabinet	RCIP1	\$ 5,000.00	No maintenance.
BUSINESS PROCESS AUTOMATION			
Workflow (New Licensing Model)			
Workflow Concurrent Client SL	WLIPC1	\$ 2,000.00	Each, for qty 1-20
	WLIPC2	\$ 1,600.00	Each, for qty 21-50
	WLIPC3	\$ 1,400.00	Each, for qty 51-100
	WLIPC4	\$ 1,200.00	Each, for qty 101-300
	WLIPC5	\$ 1,100.00	Each, for qty 301-1,000
	WLIPC6	\$ 1,000.00	Each, for qty 1,001+
Workflow Workstation Client SL	WLIPW1	\$ 1,250.00	Each, for qty 1-20
	WLIPW2	\$ 1,000.00	Each, for qty 21-50
	WLIPW3	\$ 800.00	Each, for qty 51-100
	WLIPW4	\$ 700.00	Each, for qty 101-300
	WLIPW5	\$ 600.00	Each, for qty 301-1,000
	WLIPW6	\$ 500.00	Each, for qty 1,001+
Workflow Named User Client SL	WLIPN1	\$ 1,250.00	Each, for qty 1-20
	WLIPN2	\$ 1,000.00	Each, for qty 21-50
	WLIPN3	\$ 800.00	Each, for qty 51-100
	WLIPN4	\$ 700.00	Each, for qty 101-300
	WLIPN5	\$ 600.00	Each, for qty 301-1,000
	WLIPN6	\$ 500.00	Each, for qty 1,001+
WorkView (New Licensing Model)			
WorkView Concurrent Client SL	VLIPC1	\$ 1,500.00	Each, for qty 1-20
	VLIPC2	\$ 1,300.00	Each, for qty 21-50
	VLIPC3	\$ 1,200.00	Each, for qty 51-100
	VLIPC4	\$ 1,100.00	Each, for qty 101-300
	VLIPC5	\$ 1,000.00	Each, for qty 301-1,000
	VLIPC6	\$ 900.00	Each, for qty 1,001+
WorkView Workstation Client SL	VLIPW1	\$ 900.00	Each, for qty 1-20
	VLIPW2	\$ 800.00	Each, for qty 21-50
	VLIPW3	\$ 700.00	Each, for qty 51-100
	VLIPW4	\$ 600.00	Each, for qty 101-300
	VLIPW5	\$ 500.00	Each, for qty 301-1,000
	VLIPW6	\$ 400.00	Each, for qty 1,001+
WorkView Named User Client SL	VLIPN1	\$ 900.00	Each, for qty 1-20
	VLIPN2	\$ 800.00	Each, for qty 21-50
	VLIPN3	\$ 700.00	Each, for qty 51-100
	VLIPN4	\$ 600.00	Each, for qty 101-300
	VLIPN5	\$ 500.00	Each, for qty 301-1,000
	VLIPN6	\$ 400.00	Each, for qty 1,001+
Workflow/WorkView Combination (New Licensing Model)			
Workflow/WorkView Concurrent Client SL	WWIPC1	\$ 2,700.00	Each, for qty 1-20
	WWIPC2	\$ 2,300.00	Each, for qty 21-50
	WWIPC3	\$ 2,100.00	Each, for qty 51-100
	WWIPC4	\$ 1,900.00	Each, for qty 101-300
	WWIPC5	\$ 1,700.00	Each, for qty 301-1,000
	WWIPC6	\$ 1,500.00	Each, for qty 1,001+
Workflow/WorkView Workstation Client SL	WWIPW1	\$ 1,700.00	Each, for qty 1-20
	WWIPW2	\$ 1,300.00	Each, for qty 21-50
	WWIPW3	\$ 1,100.00	Each, for qty 51-100

Workflow/WorkView Named User Client SL	WWIPW5	\$ 900.00	Each, for qty 301-1,000
	WWIPW6	\$ 800.00	Each, for qty 1,001+
	WWIPN1	\$ 1,700.00	Each, for qty 1-20
	WWIPN2	\$ 1,300.00	Each, for qty 21-50
	WWIPN3	\$ 1,100.00	Each, for qty 51-100
	WWIPN4	\$ 1,000.00	Each, for qty 101-300
	WWIPN5	\$ 900.00	Each, for qty 301-1,000
	WWIPN6	\$ 800.00	Each, for qty 1,001+
E-Forms			
E-Forms	FMIP1	\$ 10,000.00	
Mobile E-Forms Server	MEIP1	\$ 6,000.00	
Mobile E-Forms Client	MEIPC1	\$ 300.00	Each
Integration for Microsoft InfoPath	MIIP1	\$ 10,000.00	
Field Reporting Named User Client	FRIPN1	\$ 1,000.00	Qty 1-100
	FRIPN2	\$ 900.00	Qty 101-200
	FRIPN3	\$ 800.00	Qty 201-500
	FRIPN4	\$ 700.00	Qty 501-1,000
	FRIPN5	\$ 600.00	Qty 1,001 - 3,000
	FRIPN6	\$ 500.00	Qty 3,001 - 5,000
	FRIPN7	\$ 400.00	Qty 5,001+
Business Process Management Tools (BPM)			
Business Process Modeling	BMIP1	\$ 10,000.00	
Business Activity Monitoring	BAIP1	\$ 10,000.00	
Extractor for Data Warehouse	XTIP1	\$ 50,000.00	
BPM Tools Suite	TLIP1	\$ 65,000.00	
Other Business Process Automation Modules			
Business Rules Engine	BRIP1	\$ 20,000.00	
Digital Signatures	DGIPN1	\$ 200.00	
Integration for Microsoft BizTalk	BZIP1	\$ 20,000.00	
Document Composition for Microsoft Word	CWIP1	\$ 20,000.00	
Image Document Composition	FCIP1	\$ 20,000.00	
ACH Generator	AHIPW1	\$ 20,000.00	
Integration for PFU TimeStamp Service	TSIP1	\$ 2,000.00	Initial purchase includes 1,000 TimeStamps
	TSIP2	\$ 100.00	For 1,000 Addtl TimeStamps
	TSIP3	\$ 900.00	For 10,000 Addtl TimeStamps
	TSIP4	\$ 7,000.00	For 100,000 Addtl TimeStamps
Workflow			
Workflow Departmental Server	WFIPD1	\$ 10,000.00	
Workflow Enterprise Server	WFIP1	\$ 50,000.00	
Workflow Concurrent Client	WFIPC1	\$ 1,000.00	Each
Workflow Workstation Client	WFIPW1	\$ 500.00	Each
Workflow Named User Client	WFIPN1	\$ 500.00	Each
WorkView			
WorkView Server	RMIP1	\$ 10,000.00	
WorkView Concurrent Client	RMIPC1	\$ 1,000.00	Each
WorkView Workstation Client	RMIPW1	\$ 500.00	Each
WorkView Named User Client	RMIPN1	\$ 500.00	Each
Workflow/WorkView Combination			
Workflow/WorkView Concurrent Client	WCIPC1	\$ 1,500.00	Each
Workflow/WorkView Workstation Client	WCIPW1	\$ 750.00	Each
Workflow/WorkView Named User Client	WCIPN1	\$ 750.00	Each
CONTENT MANAGEMENT			
Web Server, EDM Services, Collaboration, etc.			
Web Server	WTIPW1	\$ 10,000.00	
StatusView	STIP1	\$ -	
EDM Services	DMIP1	\$ 5,000.00	
Collaboration	COLIP1	\$ 10,000.00	

Web Parts for Microsoft SharePoint	SPIPI1	\$ 5,000.00	
Archive Services for Microsoft SharePoint	MAIPI1	\$ 5,000.00	
Integration for Microsoft Search	PHIPI1	\$ 5,000.00	
Integration for WSRP	WPIPI1	\$ 15,000.00	
Integration for WebDAV	BVIPI1	\$ 10,000.00	
Document Knowledge Transfer	DKIPI1	\$ 8,000.00	
Enterprise Document Knowledge Transfer Web Access	DKIPI2	\$ 10,000.00	
Integration for ESRI ArcIMS	ESIP11	\$ 10,000.00	
Integration for ESRI ArcGIS Desktop	AGIP11	\$ 7,000.00	
Print Distribution	PDIPW1	\$ 3,000.00	
Full-Text Indexing			
Full-Text Indexing Server for Verity	VTIPI1	\$ 10,000.00	
Full-Text Indexing Concurrent Client for Verity	VTIPC1	\$ 300.00	Each
Full-Text Indexing Named User Client for Verity	VTIPN1	\$ 150.00	Each
Full-Text Indexing Workstation Client for Verity	VTIPW1	\$ 150.00	Each
Migration Tool for Verity	VTIPM1	\$ 3,000.00	
Full-Text Indexing Server for Microsoft	FXIPI1	\$ 5,000.00	
Full-Text Indexing Concurrent Client for Microsoft	TXIPC1	\$ 200.00	Each
Full-Text Indexing Named User Client for Microsoft	TXIPN1	\$ 100.00	Each
Full-Text Indexing Workstation Client for Microsoft	TXIPW1	\$ 100.00	Each
CAD Services			
CAD Services	CSIP11	\$ 5,000.00	
CAD Services Viewing Support			
CAD Services Concurrent Client - View Only	CVIPC1	\$ 300.00	Each
CAD Services Concurrent Client - View/Markup	CMIPC1	\$ 600.00	Each
CAD Services Workstation Client - View Only	CVIPW1	\$ 150.00	Each
CAD Services Workstation Client - View/Markup	CMIPW1	\$ 300.00	Each
E-MAIL			
Integration for Novell GroupWise	GRIP11	\$ 5,000.00	
Integration for IBM Lotus Notes	LNIP11	\$ 5,000.00	
Integration for Microsoft Outlook	OLIP11	\$ 5,000.00	
E-mail Archive	EAIP11	\$ 25.00	Per mailbox archived. Enter # of mailboxes .
Subscription Server	SSIPW1	\$ 10,000.00	
REPORTING			
Report Services	RPIPI1	\$ 5,000.00	
Report Mining Integration for Datawatch Monarch	MNIP11	\$ 5,000.00	
Report Mining Integration for Datawatch Monarch RMS	MNIP12	\$ 5,000.00	If the customer, purchases both Monarch integration, the customer receive half-off the second integration. If applicable, enter .5 to the left.
Exception Reports	ERIP11	\$ 4,000.00	
INTEGRATION			
Application Enabler			
Application Enabler (Annual)	AEIA11	\$ 8,000.00	Per year and per enabled application.
Enterprise Application Enabler (Annual)	AEIA12	\$ 25,000.00	Per year for all enabled applications
Application Enabler	AEIP11	\$ 15,000.00	Per enabled application.
Enterprise Application Enabler	AEIP12	\$ 50,000.00	For all enabled applications.
Host Enabler			
Host Enabler Concurrent Client	HEIPC1	\$ 300.00	Each
Host Enabler Workstation Client	HEIPW1	\$ 150.00	Each
Application Programming Interfaces (API)			
Archival API	ARIP11	\$ 5,000.00	
Reverse API	RVIP11	\$ 10,000.00	Per application.

Query API (Initial 500 queries/hour) (Thick Client)	APIPQ1	\$ 10,000.00	For initial 500 queries per hour. Enter 1 for the first block.
Query API (Additional block of 500 queries/hour) (Thick Client)	APIPQ2	\$ 8,000.00	For additional blocks of 500 queries per hour. Enter 1, 2, etc. for each additional block.
Query API (Initial 500 queries/hour) (Core)	APIPQ3	\$ 10,000.00	For initial 500 queries per hour. Enter 1 for the first block.
Query API (Additional block of 500 queries/hour) (Core)	APIPQ4	\$ 8,000.00	For additional blocks of 500 queries per hour. Enter 1, 2, etc. for each additional block.
Custom Web Indexing Platform	WIPI1	\$ 4,000.00	
Web Services Toolkit	WSIP1	\$ 10,000.00	
Security			
Single Sign-On for Microsoft Active Directory Service	SNIP1	\$ -	No charge.
Single Sign-On for CA eTrust SiteMinder	SNIP2	\$ 20,000.00	
Single Sign-On for IBM Tivoli Access Manager	SNIP3	\$ 25,000.00	
Single Sign-On for Microsoft Passport	SNIP4	\$ -	Contact Hyland for quote. Enter rate to the left.
Single Sign-On for RSA Sign-On Manager	SNIP5	\$ 30,000.00	
Single Sign-On for SAP Enterprise Portal 6.0	SNIP6	\$ 35,000.00	
Single Sign-On for Custom Applications	SNIP7	\$ -	Contact Hyland for quote. Enter rate to the left.
Single Sign-On for PeopleSoft Enterprise v.8	SNIP8	\$ 5,000.00	
DOCUMENT ACQUISITION INTEGRATIONS			
Integration for OCR for AnyDoc	OFIP1	\$ 3,500.00	
Integration for Cardiff LiquidOffice	LOIP1	\$ 10,000.00	
Integration for Cardiff TeleForm	CRIP1	\$ 3,500.00	
Integration for ReadSoft DOCUMENTS	RDIP1	\$ 3,500.00	
Integration for Captiva InputAccel	IAIP1	\$ 3,500.00	
Integration for Kofax Ascent Capture	KXIP1	\$ 3,500.00	
Integration for eCopy ShareScan OP	ECIPW1	\$ 1,200.00	Per device.
Integration for AutoStore Route to OnBase	ASIP1	\$ 3,000.00	
Connector for Esker DeliveryWare	EKIP1	\$ 15,000.00	
Fax Import Integration for Captaris RightFax	RFIPW1	\$ 6,000.00	Per server.
Integration for Visioneer OneTouch	OTIPW1	\$ 500.00	Each.
Integration for the Fujitsu fi-6000 Network Scanner			
Integration for the Fujitsu fi-6000 Network Scanner	NSIPW1	\$ 2,000.00	Per Unit
Fujitsu fi-6000 Network Scanner	FUJ-FI6000NS-NSIPW1	\$ 3,000.00	each
Maintenance Plan for the Fujitsu fi-6000 Network Scanner	FUJ-FI6000NS-NSMPW1	\$ 750.00	Per Year, Per Unit
Fujitsu fi-6000 Consumables - ScanAid Kit	CG01000-507001	\$ 89.00	each
Fujitsu fi-6000 Consumables - Pad Assembly	PA03289-0111	\$ 20.00	each
Fujitsu fi-6000 Consumables - Pick Roller	PA03289-0001	\$ 35.00	each
ERP INTEGRATIONS			
OnBase Connector for use with SAP ArchiveLink			
Connector for use with SAP ArchiveLink	SAIP1	\$ 20,000.00	
Bar Code Import for use with SAP ArchiveLink	SBIP1	\$ 10,000.00	
Print List and Data Archive for use with SAP ArchiveLink	SDIP1	\$ 10,000.00	
OLE Viewer for use with SAP ArchiveLink	SCIP1	\$ 10,000.00	
Business Indexing Connector for use with SAP ArchiveLink	SIIP1	\$ 15,000.00	
Other ERP Integrations			
Integration for Oracle E-Business Suite	ORIP1	\$ 30,000.00	
Dual Window Indexer for PeopleSoft v.8	DWIP1	\$ 15,000.00	
STATEMENTS			
Image Statements	ISIP1	\$ 1.50	1-10,000 statements per month. Sold in blocks of 1,000. Enter multiples of 1,000.

	ISIP2	\$ 1.00	10,001-50,000 statements per month. Sold in blocks of 1,000. Enter multiples of 1,000.
	ISIP3	\$ 0.50	50,0001+ statements per month. Sold in blocks of 1,000. Enter multiples of 1,000.
OMR Marks Generator	OMIP1	\$ 3,000.00	
			Per recipient. Sold in blocks of 250. Minimum initial purchase of 4 blocks (1,000). Enter values of 1,000, 1,250, 1,500, etc.
Document Distribution	DDIP1	\$ 4.00	
Statement Composition	SCIPW1	\$ 10,000.00	
RECORDS MANAGEMENT			
Document Retention	DRIP1	\$ 10,000.00	
Physical Records Management	PRIP1	\$ 15,000.00	
Records Management	RIIP1	\$ 20,000.00	
STORAGE AND EXPORT			
Distributed Disk Services	DSIP1	\$ 5,000.00	
Storage Integration for EMC Centera	CTIP1	\$ 20,000.00	
Storage Integration for IBM Tivoli	TVIP1	\$ 20,000.00	
CD Authoring	CDIPW1	\$ 1,000.00	
DVD Authoring	DVIPW1	\$ 2,000.00	
Automated CD Authoring	AAIPW1	\$ 5,000.00	
Automated DVD Authoring	AVIPW1	\$ 8,000.00	
Automated CD/DVD Publishing	ADIPC1	\$ 5,000.00	1-100 CD/DVD Publishing Orders. Enter 1 for first block.
	ADIPC2	\$ 4,000.00	Add'l blocks of 100 Publishing Orders. Enter 1, 2, etc. for addt'l blocks.
Publishing	PBIA1	\$ 2,000.00	
			\$1,000 per entity receiving CDs/DVDs. Enter 1, 2, etc. for # of entities.
Aggregate Publishing	PBIP1	\$ 1,000.00	
Multilingual Publishing	MPIP1	\$ 3,000.00	
Encrypted CD/DVD Publishing	EPIP1	\$ 5,000.00	
Export	EXIPC1	\$ 5,000.00	
Plasmon UDO Archive Appliances - See teamonbase.com			
COMPLIANCE FRAMEWORK			
Compliance Framework Template	SOIP1	\$ 10,000.00	
GOVERNMENT			
Integration for Azteca Cityworks	CYIP1	\$ 10,000.00	
			Per court room. Enter 1, 2, etc. for # of court rooms.
Integration for FTR Limited TheRecord	FLIP1	\$ 1,000.00	
			\$0.01 per constituent per system/database. Enter # of constituents for the agency.
Public Sector Constituency Web Access	GWIP1	\$ 0.01	
Municipality Licensing Bundle	GV-B-MU1	\$ 14,745.00	See description for bundle details.
Municipality Concurrent Client	GV-B-MU1-CTIPC1	\$ 850.00	Each, for qty 1-5
	GV-B-MU1-CTIPC2	\$ 750.00	Each, for qty 6-20
	GV-B-MU1-CTIPC3	\$ 650.00	Each, for qty 21-50
Municipality Workflow Concurrent Client SL	GV-B-MU1-WLIPC1	\$ 1,200.00	Each, for qty 1-5
	GV-B-MU1-WLIPC2	\$ 1,100.00	Each, for qty 6-20
	GV-B-MU1-WLIPC3	\$ 1,000.00	Each, for qty 21-50
HIGHER EDUCATION			

Transcript Reader

TRIP11	\$ 10.00	Per Transcript 1-10,000 Transcripts
TRIP12	\$ 8.00	Per Transcript 10,001-30,000
TRIP13	\$ 6.00	Per Transcript 30,001+

MAINTENANCE

OnBase Annual Maintenance

Annual Maintenance		18% of the then current list price, unless otherwise stated.
--------------------	--	--

SERVICES

Hyland Software Services

Installation	INSTL1	\$ 1,500.00	Per day, plus T&E
Consulting	WFCNS1	\$ 1,700.00	Per day, plus T&E
Database Services	DBSRV1	\$ 1,700.00	Per day, plus T&E
Database Services	DBSRV2	\$ 200.00	Per hour
Software Development	SFTWR1	\$ -	Contact Hyland for quote. Enter rate to the left.
Consulting (CSG)	CUSOL1	\$ 1,700.00	Per day, plus T&E
Upgrade Services	UPGRD1	\$ 150.00	Per hour. 1 hr minimum. Enter # of hours.
Upgrade Services	UPGRD2	\$ 1,500.00	Per day, plus T&E
Daily Project Management Services	PMSSUP	\$ 1,200.00	Per day, plus T&E

ONBASE EDUCATION SERVICES FOR CUSTOMERS

System Administration	TRSYS1	\$ 2,500.00	Per person at Hyland.
	TRSYS2	\$ 15,000.00	On-site, plus T&E.
Advanced System Administration	TRSYS3	\$ 2,500.00	Per person at Hyland.
	TRSYS4	\$ 15,000.00	On-site, plus T&E.
Upgrading OnBase Certified System Administrator - Online	TRUAW1	\$ 250.00	Per attendee
Workflow Administration	TRWFE1	\$ 2,500.00	Per person at Hyland.
	WRWFE3	\$ 15,000.00	On-site, plus T&E.
Workflow Design	TRWFE2	\$ 2,500.00	Per person at Hyland.
	WRWFE4	\$ 15,000.00	On-site, plus T&E.
End User OnBase Client	TREND1	\$ 2,200.00	On-site, per day, plus T&E.
Web Server / Application Enabler Administration	TRCSA1	\$ 2,500.00	Per person at Hyland.
	TRCSA2	\$ 15,000.00	On-site, plus T&E.
WorkView Implementation	TRWVI2	\$ 2,500.00	Per person at Hyland.
Custom Customer Training	TRCCC1	\$ 3,000.00	Per day, plus T&E.

ONBASE DATA VALIDATION & DISASTER RECOVERY SERVICES

OnBase Database Validation Services	RMMADA	\$ 2,900.00	Per year. Monthly validation.
	RQMADA	\$ 1,900.00	Per year. Quarterly validation.
	ROMADA	\$ 60.00	Per 20 GB per validation.
OnBase Disk Group Validation and CD or DVD Media	3YMADC	\$ 60.00	Per year. Monthly validation.
	3YMADD	\$ 75.00	Per year. Quarterly validation.
	OMYADT	\$ 5.00	Per 20 GB per validation.
OnBase Emergency Onsite Recovery Services	ERMADA	\$ 3,000.00	Per year
	ERMADB	\$ 2,000.00	Per day

Hyland OnBase Product/Module Descriptions

SERVER MODULES	PRODUCT DESCRIPTION	ONBASE / 3RD PARTY REQUIREMENTS
Multi-User Server	Provides utilities, OnBase Configuration, Basic Text Search and Print Servers, three-tier OnBase Broker and a License to use the copyrighted OnBase Database in conjunction with a supported SQL Database Management System (DBMS) in a single institution, multi-user environment.	OnBase: Required for each Institution and each OnBase Database within that Institution. Includes a Workstation Client license (CTIPW1).
	These licenses are not transferable to service bureau customers.	3rd Party: Requires a supported SQL DBMS.
Single User Server	Provides utilities, OnBase Configuration, Basic Text Search and Print Servers, three-tier OnBase Broker and a License to use the copyrighted OnBase Database in conjunction with a supported SQL Database Management System (DBMS) in a single institution environment.	OnBase: Required for each Institution and each OnBase Database within that Institution. Includes a Workstation Client license (CTIPW1).
	For Single User environments. Licenses are not transferable to service bureau customers.	3rd Party: Requires a supported SQL DBMS.
CLIENT MODULES	PRODUCT DESCRIPTION	ONBASE / 3RD PARTY REQUIREMENTS
Concurrent Client	Provides retrieval, viewing, printing, and management of documents.	
	Concurrent Clients have a minimum connection (lease) time of five (5) minutes.	
Workstation Client	Both a thick or thin Client can use this license.	
	Provides retrieval, viewing, printing, and management of documents.	
Named User Client	Only a thick Client can use this license.	
	Provides retrieval, viewing, printing, and management of documents for a single named user.	
IMAGING AND CAPTURE	Both a thick or thin Client can use this license.	
Document Imaging	PRODUCT DESCRIPTION	ONBASE / 3RD PARTY REQUIREMENTS
Production Document Imaging (Kofax or TWAIN)		OnBase: Includes a Workstation Client license (CTIPW1).
	Scans (digitizes) paper documents using Kofax or TWAIN compatible devices. Advanced features include distributed capture and indexing, image enhancement, bar code recognition (Kofax), blank page separation and auto-enabled indexing.	3rd Party: If utilizing Kofax, the Kofax software or a Kofax image processing board is required.
Production Document Imaging (ISIS or TWAIN)		OnBase: Includes Workstation Client license (CTIPW1).
	Scans (digitizes) paper documents using ISIS or TWAIN compatible devices. Advanced features include distributed capture and indexing, blank page separation and auto-enabled indexing.	3rd Party: Utilizes ISIS toolkit, which Hyland provides.
Disconnected Scanning	Works in conjunction with the Web Server to provide users with a robust document capture solution that is used while disconnected from OnBase. Supports advanced document processing features such as deskew, despeckle, and bar code recognition. Supports Kofax, ISIS, and TWAIN scanning.	3rd party: If utilizing Kofax, the Kofax software or a Kofax image processing board is required.
		OnBase: Requires a Workstation Client license (CTIPW1), which is not included.
Desktop Document Imaging	Scans paper documents using only TWAIN compatible devices.	
		OnBase: Requires a valid Web Server license (WTIPW1). Requires a Concurrent or Named Client license.
Web Scanning Named User	Provides low-volume, ad-hoc, TWAIN based document scanning capability to the Web Client.	3rd Party: Servers require Microsoft: Windows 2003 with IIS 6.x or Windows 2000 Server with IIS 5.x; .NET Framework 2.0, MSXML 3 SP7, MSXML 4 SP2, and Microsoft Runtime 8.0. Web Clients require Microsoft: Windows Vista, 2003, XP, or 2000; IE 6.0 SP1, MSXML 3 SP7 or higher.
	Provides a simple and configurable scanning interface from within the OnBase Client or as a standalone scanning application. In a standalone installation, documents and index data are uploaded to OnBase via a connection to an OnBase Web Server or the OnBase Desktop.	OnBase: The OnBase document retrieval option requires an OnBase Concurrent or Named User Client when running in Desktop mode. (Client license not included).
Front Office Scanning	Indexing can be performed using Application Enabler (not included), HL7 datasets, or by manual entry.	
Other Imaging and Capture Modules		
Batch OCR	Converts images to text in order to facilitate text searching and/or full text indexing. Supports multiple languages, processing of bi-tonal, grayscale and color images, and creation of multiple output formats (ASCII text, Adobe PDF, HTML or Microsoft Word). Enables batch processing and also ad-hoc document OCR from a select list.	OnBase: Requires installation of OnBase OCR software (included) on user Workstation. Requires a valid Client license.
		OnBase: Requires installation of OnBase OCR software (included) on user Workstation. Requires a valid Client license.
Ad-hoc Document OCR	Converts images to text in order to facilitate text searching and/or full-text indexing. Permits OCR of an individual document or group of documents from an OnBase select list.	OnBase: Requires a valid Client license.
		3rd Party: Functions with Windows 2000 and XP. To use Windows 98 or NT, you must purchase the Leadtools Print Driver sold separately.
Virtual Print Driver	Provides a method to capture, index and store the print stream from any printable application and store the information as a TIFF image within the OnBase document repository. This is an institution license.	

Signature Pad Interface (TWAIN)	Allows the real-time signing of TIFF images and OnBase E-Forms within the OnBase Client. The original image is altered with the signature that is scratched on a Topaz signature pad device.	OnBase: Requires a valid Client license.
Bar Code Generator	Generates 3-of-9 bar code sheets from manual keyword entry (in standalone mode) or from keyword and document type information scraped from the line-of-business application screen (when used with Application Enabler). In standalone mode, the Bar Code Generator connects to the OnBase database and allows the user to select a Document Type, at which point a keyword list is displayed for manual entry. At completion of manual entry, the user can trigger the printing of a 3-of-9 bar code sheet with the Document Type and Keywords encoded on it.	OnBase: In standalone mode: Requires OnBase Desktop and a valid OnBase Client License. When used with Application Enabler: Requires Application Enabler, OnBase Desktop, and a valid OnBase Client License.
Merchant Capture	Enables corporate and/or public sector organizations to benefit from The Check Clearing for the 21st Century Act (Check 21), in conjunction with their depository financial institution, by automating the paper-based, physical deposit process.	3rd Party: Requires a relationship with a financial institution capable of receiving a DSTU X9.37-2003 compliant deposit file. Contact Hyland for transfer file format validation prior to sale. Please make no assumptions.
Image-Only Modules		
Image-Only Multi-User Server	Provides utilities, OnBase Configuration, Print Servers, and a License to use the copyrighted OnBase Database in a single institution, multi-user environment for only image documents. Provides retrieval, viewing, printing, and management of image documents. Concurrent Clients have a minimum connection (lease) time of five (5) minutes.	OnBase: Required for each Institution and each OnBase Database within that Institution. 3rd Party: Requires a supported SQL DBMS.
Image-Only Concurrent Client	Both a thick or thin Client can use this license.	
Image-Only Workstation Client	Provides retrieval, viewing, printing, and management of image documents. Only a thick Client can use this license.	
Image-Only Named User Client	Provides retrieval, viewing, printing, and management of image documents for a single named user. Both a thick or thin Client can use this license.	
IMPORT PROCESSING		
COLD/ERM and Import Processors		
COLD/ERM	Processes, indexes, and stores host/legacy application generated text files. Supports ASCII, PCL, AFP and DJDE natively.	OnBase: Includes a Workstation Client license (CTIPW1). To process PCL, AFP or DJDE natively, the respective OnBase Input Filter is required. 3rd Party: To process Metacode, third party conversion software is required to convert these formats to PCL.
Advanced COLD/ERM	Processes, indexes, and stores host/legacy application generated text files. Supports ASCII, PCL, AFP and DJDE natively. Uses multi-threaded technology with specific hardware requirements to maximize processing speeds.	OnBase: Includes a Workstation Client license (CTIPW1). To process PCL, AFP or DJDE natively, the respective OnBase Input Filter is required. 3rd Party: To process Metacode, third party conversion software is required to convert this format to PCL.
PCL Input Filter	Works in conjunction with OnBase COLD / ERM to process and store PCL data streams, enabling stored documents to retain original formatting features.	OnBase: Requires a COLD/ERM license (CLIPW1). Due to the variety of data streams, Hyland Software must verify that a PCL stream can be processed prior to selling this module. Please make no assumptions.
AFP Input Filter	Works in conjunction with OnBase COLD / ERM to process and store AFP data streams, enabling stored documents to retain original formatting features.	OnBase: Requires a COLD/ERM license (CLIPW1). Due to the variety of data streams, Hyland Software must verify that an AFP stream can be processed prior to selling this module. Please make no assumptions.
DJDE Input Filter	Works in conjunction with OnBase COLD / ERM to process and store DJDE data streams, enabling stored documents to retain original formatting features.	OnBase: Requires a COLD/ERM license (CLIPW1). Due to the variety of data streams, Hyland Software must verify that a DJDE stream can be processed prior to selling this module. Please make no assumptions.
PDF Input Filter	Processes, indexes, and stores PDF documents. Allows for the extraction of index data from the PDF. Due to the variety of PDF formats, Hyland Software must verify that a PDF document can be processed prior to selling this module. Please make no assumptions.	OnBase: COLD/ERM.
Document Import Processor	Imports documents (scanned or other) and their respective index information. This module is often used in conjunction with third party forms processing software as well as data conversion utilities.	3rd Party: Requires PDFNet SDK (License Type 6) from PDFTron Systems, Inc. Sold separately. OnBase: Includes a Workstation Client license (CTIPW1).
Advanced Document Import Processor	Imports documents (scanned or other) and their respective index information. This module is often used in conjunction with third party forms processing software as well as data conversions utilities. Uses multi-threaded technology with specific hardware requirements to maximize processing speeds.	OnBase: Includes a Workstation Client license (CTIPW1).
XML Tag Import Processor	Processes, indexes, and stores XML format files.	OnBase: Includes a Workstation Client license (CTIPW1).

Remittance Processor	Provides the ability to identify remittance information (check images, remittance slips, and financial information) from a remittance text file and store the information within the OnBase document repository.	OnBase: Includes a Workstation Client license (CTIPW1). Hyland provides processing for files from IBM, Bancotec, Unisys, NCR and other formats including COFF. All files must be sent to Hyland Software for verification prior to the sale. Make no assumptions.
Advanced Remittance Processor	Provides the ability to identify remittance information (check images, remittance slips, and financial information) from a remittance text file and store the information within the OnBase document repository. Uses multi-threaded technology with specific hardware requirements to maximize processing speeds.	OnBase: Includes a Workstation Client license (CTIPW1). Hyland provides processing for files from IBM, Bancotec, Unisys, NCR and other formats including COFF. All files must be sent to Hyland Software for verification prior to the sale. Make no assumptions.
Directory Import Processor	Allows users to import documents residing in a network directory structure. The processor uses a configurable XML file to determine the document types and keyword values for the documents residing in the process directories. Could be utilized to archive documents that are scanned by a MFP device into network directories.	
COLD/ERM-Only Modules		
COLD/ERM-Only Multi-User Server	Provides utilities, OnBase Configuration, Basic Text Search and Print Servers, and a License to use the copyrighted OnBase Database in a single institution, multi-user environment for only COLD (text) documents. Provides retrieval, viewing, printing, and management of COLD documents. Concurrent Clients have a minimum connection (lease) time of five (5) minutes.	OnBase: Required for each Institution and each OnBase Database within that Institution. 3rd Party: Requires a supported SQL DBMS.
COLD/ERM-Only Concurrent Client	Both a thick or thin Client can use this license.	
COLD/ERM-Only Workstation Client	Provides retrieval, viewing, printing, and management of documents. Only a thick Client can use this license.	
COLD/ERM-Only Named User Client	Provides retrieval, viewing, printing, and management of documents for a single named user. Both a thick or thin Client can use this license.	
Other Import Processing Modules		
132 Column Font	Provides the ability to view a complete 132-character wide COLD report in 800 x 600 screen resolution without having to scroll right and left to find the information.	Qty 1-100 desktops Qty 101+ desktops OnBase: Requires a valid Client license.
Conversion Tool for IXOS	Utilized to migrate data from the IXOS repository to OnBase. The tool reads the IXOS repository and creates the necessary Document Import Processor index files to process the data into OnBase.	OnBase: Requires Document Import Processor. Recommend five (5) days of Custom Solutions Group services. Recommend five (5) days of Installation Services.
Conversion Tool for Ricoh eCabinet	Utilized to migrate data from the Ricoh eCabinet repository to OnBase. The tool reads the Ricoh eCabinet repository and creates the necessary Document Import Processor index files to process the data into OnBase.	OnBase: Requires XML Tag Import Processor. Recommend five (5) days of Custom Solutions Group services. Recommend five (5) days of Installation Services.
BUSINESS PROCESS AUTOMATION		
Workflow (New Licensing Model)		
Workflow Concurrent Client SL	Provides electronic document routing through a configurable work process. Includes pre-configured rules, actions, transitions, and notifications and additional capabilities for Visual Basic scripts. Provides access to Workflow functions in order to perform work and complete tasks on documents. Includes E-Forms.	OnBase: Requires a valid Client license.
Workflow Workstation Client SL	Provides electronic document routing through a configurable work process. Includes pre-configured rules, actions, transitions, and notifications and additional capabilities for Visual Basic scripts. Provides access to Workflow functions in order to perform work and complete tasks on documents. Includes E-Forms.	OnBase: Requires a valid Client license.
Workflow Named User Client SL	Provides electronic document routing through a configurable work process. Includes pre-configured rules, actions, transitions, and notifications and additional capabilities for Visual Basic scripts. Provides access to Workflow functions in order to perform work and complete tasks on documents. Includes E-Forms.	OnBase: Requires a valid Client license.
WorkView (New Licensing Model)		
WorkView Concurrent Client SL	Provides the ability to create custom applications in OnBase to track issues from start through resolution. Supports optional attachment of OnBase documents and user-defined events to issues. Configuration tool allows user to define custom database tables, screens and views.	OnBase: Requires a Web Server license (WTIPW1). Requires a valid Client license.
WorkView Workstation Client SL	Provides the ability to create custom applications in OnBase to track issues from start through resolution. Supports optional attachment of OnBase documents and user-defined events to issues. Configuration tool allows user to define custom database tables, screens and views.	OnBase: Requires a Web Server license (WTIPW1). Requires a valid Client license.
WorkView Named User Client SL	Provides the ability to create custom applications in OnBase to track issues from start through resolution. Supports optional attachment of OnBase documents and user-defined events to issues. Configuration tool allows user to define custom database tables, screens and views.	OnBase: Requires a Web Server license (WTIPW1). Requires a valid Client license.
Workflow/WorkView Combination (New Licensing Model)		
Workflow/WorkView Concurrent Client SL	Provides the combined functionality of Workflow and WorkView within a single license. Includes E-Forms.	OnBase: Requires any respective Workflow and WorkView requirements.
Workflow/WorkView Workstation Client SL	Provides the combined functionality of Workflow and WorkView within a single license. Includes E-Forms.	OnBase: Requires any respective Workflow and WorkView requirements.

Workflow/WorkView Named User Client SL	Provides the combined functionality of Workflow and WorkView within a single license. Includes E-Forms.	OnBase: Requires any respective Workflow and WorkView requirements.
E-Forms		
E-Forms	Provides the ability to complete, index, and store HTML based documents (forms) from the OnBase Client interface using an HTML form template.	3rd Party: Requires Microsoft IE 5.0 or greater. OnBase: Requires a Mobile E-Forms Client license (MEIPC1). Requires a license to the E-Forms module (FMIP11). In order to store E-Forms, a valid Client license is required, as well as an OnBase Web Server license (WTIPW1).
Mobile E-Forms Server	Provides Mobile E-Forms submission and synchronization capabilities from portable devices (e.g. laptops).	3rd Party: Requires Microsoft IIS 4.0 or greater in a Microsoft Windows NT or Windows 2000 platform.
Mobile E-Forms Client	Provides the ability to complete, index, and store HTML based documents (forms) from a mobile device (e.g. laptop) using an HTML form template.	OnBase: Requires a Mobile E-Forms Server license (MEIP11).
Integration for Microsoft InfoPath	Allows customers to create Microsoft InfoPath forms which automatically store themselves, fully indexed, into the repository for later retrieval and/or routing through Workflow, if applicable.	3rd Party: Requires Microsoft Office 2003 Professional or greater.
Field Reporting Named User Client	Empowers employees in the field to participate in electronic business processes. Forms are completed remotely and when reconnected, are automatically sent into OnBase.	3rd Party: Requires FormDocs Premium or FormDocs Office. (Sold Separately)
Business Process Management Tools (BPM)		
Business Process Modeling	Used to import existing Workflow life cycles or create entirely new ones to identify potential bottlenecks, analyze actual or expected productivity and run what-if scenarios to test proposed modifications.	OnBase: Requires a valid Client license.
Business Activity Monitor	Provide real-time snapshots of Workflow processes. Available through the StatusView interface of the OnBase Web Server, a SharePoint Web site or a WSRP 1.0-compliant portal, these portlets are configurable by business users who have the appropriate rights.	OnBase: Requires Web Server, StatusView, and Workflow.
Extractor for Data Warehousing	Allows users to take a snapshot of the workflow documents and their keywords at the point in time that the snapshot is taken. This data can then be used for statistical analysis within a data warehouse.	OnBase: Requires Workflow.
BPM Tools Suite	Provides users with BPM tools at a bundled price. Includes: - Business Process Modeling (BMIP11) - Business Activity Monitoring (BAIP11) - Report Services (RPIP11) - Extractor for Data Warehousing (XTIP11)	OnBase: Requires the necessary components for each license as individually listed. 3rd Party: Requires the necessary components for each license as individually listed.
Other Business Process Automation Modules		
Business Rules Engine	Allows organizations to react quickly to changing business conditions, adjusting their approach to markets or adding new lines of business. The Business Rules Engine is designed to allow managers to create business rules which can contain parameterized values. This allows shift supervisors to adjust threshold values as needed to account for dynamic business environments.	OnBase: Requires Workflow. OnBase: Requires a valid Client license.
Digital Signatures	Allows users to digitally approve documents within the OnBase system via certificate-based signing. Also, allows signed documents to be routed in Workflow based on the presence or absence of signatures.	3rd Party: Organizations must obtain digital certificates from a Certificate Authority (CA) or act as their own CA. OnBase: If storing InfoPath forms, requires the Integration for Microsoft InfoPath.
Integration for Microsoft BizTalk	Enables the access and configuration of the web services/adaptors for Microsoft BizTalk.	3rd Party: Requires Microsoft BizTalk 2006 and .NET Framework 2.0. OnBase: Requires a valid Client license.
Document Composition for Microsoft Word	Creates form letters using Microsoft Word templates. The content of the created document is a combination of merged data form templates, E-Forms, Workflow properties, web services, database queries and nested sub-templates.	3rd Party: Requires Microsoft Word 2000 or later on the client and/or server depending on where the composition is occurring. OnBase: Requires a valid Client license. Interactive composition is currently available only in the thick Client.
Image Document Composition	Allows users to complete image-based forms electronically based on a combination of merged data form templates, E-Forms, Workflow properties, web services, database queries and nested sub-templates.	3rd Party: Requires the Snowbound imaging library on both the Client and/or server depending on where the image creation is occurring. OnBase: Requires a valid Client license.
ACH Generator	Creates an Automated Clearing House (ACH) file that conforms to the NACHA format for Electronic Funds Transfer (EFT). Also, includes a pre-note test file feature and a check consolidation feature that combines multiple payments into a single transaction.	Before selling this module, discussions must be held with Hyland to verify the application being proposed. All proposed applications must be approved by Hyland Software in writing. Make no assumptions.
Integration for PFU TimeStamp Service	Provides the ability for organizations to include tamper-proof document authenticity in their record retention strategies. A TimeStamp provides indisputable proof that the contents of any document in OnBase existed at a point-in-time and have not changed since that time. The PFU TimeStamp Service enables organizations to be compliant with several domestic and international regulations, offer document/record authentication, and facilitate real-time intellectual property management.	Solution Providers will receive one-half (½) of their standard OnBase Solution Provider discount on additional TimeStamps. Solution Providers will receive their standard OnBase Solution Provider discount on maintenance.
Workflow		

	Provides electronic document routing through a configurable work process. Includes pre-configured rules, actions, transitions, and notifications and additional capabilities for Visual Basic scripts.	
Workflow Departmental Server	Allows one department within an organization to create Workflow solutions specific to that department (e.g. an AP department may implement a Requisition process and an AP Review process). If more than one department wishes to use Workflow, they must license additional department licenses or purchase the Workflow Enterprise Server. This license may be applied toward the purchase of Workflow Enterprise Server within one year of the purchase date.	OnBase: In order to access the Workflow Client interface, a valid Client license is required, as well as a matching Workflow Client license (WFIPC1, WFIPW1, or WFIPN1).
Workflow Enterprise Server	Provides electronic document routing through a configurable work process. Includes pre-configured rules, actions, transitions, and notifications and additional capabilities for Visual Basic scripts.	OnBase: In order to access the Workflow Client interface a valid Client license is required, as well as a matching Workflow Client license (WFIPC1, WFIPW1, or WFIPN1).
Workflow Concurrent Client	Allows any number of Workflow applications to be implemented by any number of departments within the enterprise.	
	Provides access to Workflow functions in order to perform work and complete tasks on documents.	OnBase: Requires a valid Client license. Requires a Workflow Server license (WFIPD1 or WFIP11).
Workflow Workstation Client	License lease begins upon first Workflow activity, ends when user closes or minimizes Workflow.	OnBase: Requires a valid Client license. Requires a Workflow Server license (WFIPD1 or WFIP11).
Workflow Named User Client	Provides access to Workflow functions in order to perform work and complete tasks on documents.	OnBase: Requires a valid Client license. Requires a Workflow Server license (WFIPD1 or WFIP11).
Workflow		
WorkView Server	Provides the ability to create custom applications in OnBase to track issues from start through resolution. Supports optional attachment of OnBase documents and user-defined events to issues. Configuration tool allows user to define custom database tables, screens and views.	OnBase: Requires a WorkView Client license (RMIPC1) or (RMIPW1) for each user. Requires a Web Server license (WTIPW1). Requires a valid Client license.
WorkView Concurrent Client	Provides the ability to create custom applications in OnBase to track issues to resolution. Supports optional attachment of OnBase documents and user-defined events to issues. Configuration tool allows user to define custom database tables, screens and views.	OnBase: Requires a WorkView Server license (RMIP11). Requires a valid Client license.
WorkView Workstation Client	Provides the ability to create custom applications in OnBase to track issues to resolution. Supports optional attachment of OnBase documents and user-defined events to issues. Configuration tool allows user to define custom database tables, screens and views.	OnBase: Requires a WorkView Server license (RMIP11). Requires a valid Client license.
WorkView Named User Client	Provides the ability to create custom applications in OnBase to track issues to resolution. Supports optional attachment of OnBase documents and user-defined events to issues. Configuration tool allows user to define custom database tables, screens and views.	OnBase: Requires a WorkView Server license (RMIP11). Requires a valid Client license.
Workflow/WorkView Combination		
Workflow/WorkView Concurrent Client	Provides the combined functionality of Workflow and WorkView within a single license. For use with traditional Workflow and WorkView licensing models.	OnBase: Requires Departmental Workflow Server and/or Enterprise Workflow Server, and WorkView Server. E-Forms are still required to be purchased separately.
Workflow/WorkView Workstation Client	Provides the combined functionality of Workflow and WorkView within a single license. For use with traditional Workflow and WorkView licensing models.	OnBase: Requires Departmental Workflow Server and/or Enterprise Workflow Server, and WorkView Server. E-Forms are still required to be purchased separately.
Workflow/WorkView Named User Client	Provides the combined functionality of Workflow and WorkView within a single license. For use with traditional Workflow and WorkView licensing models.	OnBase: Requires Departmental Workflow Server and/or Enterprise Workflow Server, and WorkView Server. E-Forms are still required to be purchased separately.
CONTENT MANAGEMENT		
Web Server, EDM Services, Collaboration, etc.		
		OnBase: Each user requires a Concurrent or Named User Client license.
Web Server	Provides an ActiveX or HTML browser interface to access documents stored in an OnBase database via the Internet, Extranet or corporate Intranet. Each physical Web Server connecting to an OnBase database requires a separate Web Server license. StatusView will not be automatically included with the Web Server. If StatusView functionality is desired for a solution, please include a line item on any order with the code STIP11 at \$0.00.	3rd Party: Servers require Microsoft: Windows 2003 with IIS 6.x or Windows 2000 Server with IIS 5.x; .NET Framework 2.0, MSXML 3 SP7, MSXML 4 SP2, and Microsoft Runtime 8.0. Web Clients require Microsoft: Windows Vista, 2003, XP, or 2000; IE 6.0 SP1, MSXML 3 SP7 or higher.
StatusView		StatusView will not be automatically included with the Web Server. If StatusView functionality is desired for a solution, please include a line item on any order with the code STIP11 at \$0.00.
EDM Services	Provides the ability to store and manage revisions of documents generated by Microsoft Office and other file formats. Includes multiple file import, revision control, version control, document commenting, checkin/checkout, automatic upload and synchronization of revisions, document templates, and the Briefcase.	OnBase: Requires a valid Client license. 3rd Party: If saving and retrieving with Microsoft Office applications, licenses for those software applications are required.

		<p>OnBase: Requires a Web Server license (WTIPW1) if: 1. Discussion threads are required for WorkView objects (WorkView sold separately), and/or 2. A thin Client Collaboration environment is required. Requires a valid Client license.</p> <p>3rd Party: Requires Citrix GoTo Meeting Corporate Account if synchronous collaboration is desired. Sold separately.</p>
Collaboration	Provides a common workspace for users and teams to share documents and WorkView objects, and allows for threaded discussions around that information. Synchronous collaboration is provided through integration with Citrix GoTo Meeting.	
		<p>OnBase: Requires Web Server. Requires valid Client licenses. Requires a corresponding license for specific Web Parts exposed. For example, if you were using the Web Part for Workflow, you would require a Workflow license.</p> <p>3rd Party: For deployments using Windows NT Authentication: Requires Microsoft Windows Server 2003, which includes SharePoint Services 2.0 or 3.0. For deployments using Microsoft SharePoint Single Sign-On: Requires Microsoft Windows Server 2003 and either Microsoft SharePoint Portal Server 2003 (2.0) or Microsoft Office SharePoint Server 2007 (3.0) (each sold separately from OS).</p>
Web Parts for Microsoft SharePoint	Enables Microsoft SharePoint users to configure, view, and interact with all available StatusView objects from within a SharePoint web page.	
		<p>OnBase: Requires Web Server. Requires valid Client licenses.</p> <p>3rd Party: Requires Microsoft Windows Server 2003, which includes SharePoint Services 2003 (2.0) / 2007 (3.0) or either Microsoft SharePoint Portal Server 2003 (2.0) / Microsoft Office SharePoint Server 2007 (3.0) (each sold separately from OS).</p>
Archive Services for Microsoft SharePoint	Allows users to archive documents from SharePoint document libraries to OnBase. Archival can be ad-hoc, event-driven, or scheduled based on pre-defined rules.	
		<p>OnBase: Requires Web Server. Requires valid Client licenses.</p> <p>3rd Party: Microsoft Office SharePoint Server (MOSS) 2007</p> <p>OnBase: Requires Web Server. Requires valid Client licenses. Requires a corresponding license for the specific portlets that are exposed. For example, if you were using the WSRP portlet for Workflow, you would require a Workflow license.</p>
Integration for Microsoft Search	Allows users to search and retrieve OnBase content, along with other enterprise sites and repositories, when using Microsoft SharePoint Search.	
Integration for WSRP	Allows users to search, retrieve, view and interact with documents, business processes, and collaboration spaces within WSRP compliant portal pages.	
Integration for WebDAV	Provides users various retrieval, ingestion, and automation capabilities to OnBase via the WebDAV protocol.	<p>OnBase: Requires Web Server.</p>
		<p>OnBase: Requires a valid Client license. Optionally, requires an EDM Services license if checkin, checkout and revisions of documents are desired.</p>
Document Knowledge Transfer	Enables organizations to distribute documents that are required reading to the employee workforce and audit their reading compliance for legal or regulatory purposes.	
Enterprise Document Knowledge Transfer Web Access	Provides users web-based document viewing of documents via the Document Knowledge Transfer interface only. Standard Client functionality will be restricted. This license will not consume additional Concurrent Clients.	<p>OnBase: Requires Document Knowledge Transfer.</p>
		<p>OnBase: Requires an OnBase Concurrent Client or Named Client license. Requires an OnBase Web Server license (WTIPW1).</p> <p>3rd Party: Requires ArcIMS and ArcSDE v 8.3 or greater.</p>
Integration for ESRI ArcIMS	Provides the ability to select an area or objects from a map and retrieve the OnBase documents associated with those objects. OnBase users can also cross-reference a document to display all associated geospatial references in a map using ESRI ArcIMS.	<p>OnBase: Requires the Desktop. Requires the Web Server if the Desktop is deployed remotely.</p>
		<p>3rd Party: Requires ArcGIS Desktop (ArcInfo, ArcEditor, ArcView) and Arc SDE version 9.1 or greater.</p>
Integration for ESRI ArcGIS Desktop	Allows ESRI ArcInfo, ArcEditor and ArcView users the ability to link OnBase documents to locations on maps stored in an ArcSDE Spatial Data Server or ESRI shape files. The integration provides an easy-to-use toolbar in the ArcGIS Desktop environment for query, point-and-click retrieval and archiving of OnBase documents related to map features.	
Print Distribution	Provides scheduled print back services for remote locations.	<p>OnBase: Requires a valid Client license.</p>
Full-Text Indexing		
		<p>Requires a valid Client license. Requires a valid Full-Text Indexing Client for Verity. (Includes v 4.5.1 or v 5.5 of the Verity K2 Server software).</p> <p>3rd Party: Verity v 4.5.1 requires NT Server 4.0 or Windows 2000 Server with Internet Information Services (IIS) installed. Verity v 5.5 requires Windows 2003 Server with Internet Information Services (IIS) installed.</p>
Full-Text Indexing Server for Verity	Provides integration with Verity to provide advanced Full-Text searches for words or phrases that exist within documents stored in OnBase. These words or phrases can exist in COLD documents, text renditions of image documents (OCRed images), and many 3rd party application documents. Can perform fuzzy searches, wildcard searches, stemming searches, thesaurus searches, and searches combining full-text and keywords on document types.	
Full-Text Indexing Concurrent Client for Verity	Provides the ability to retrieve full-text data stored in Verity Full-Text collections. Verity Full-Text can index OCR images, COLD text documents, Adobe PDF documents, Microsoft Office documents, WordPerfect documents, HTML documents and many others.	<p>OnBase: Requires a valid Client license. Requires Full-Text Indexing Server for Verity (VTIP11).</p>
Full-Text Indexing Named User Client for Verity	Provides the ability to retrieve full-text data stored in Verity Full-Text collections. Verity Full-Text can index OCR images, COLD text documents, Adobe PDF documents, Microsoft Office documents, WordPerfect documents, HTML documents and many others. Valid for a single named user logged into one workstation at a time.	<p>OnBase: Requires a Named User Client license. Requires Full-Text Indexing Server for Verity (VTIP11).</p>
Full-Text Indexing Workstation Client for Verity	Provides the ability to retrieve full-text data stored in Verity Full-Text collections. Verity Full-Text can index OCR images, COLD text documents, Adobe PDF documents, Microsoft Office documents, WordPerfect documents, HTML documents and many others.	<p>OnBase: Requires a Workstation Client license. Requires Full-Text Indexing Server for Verity (VTIP11).</p>

Migration Tool for Verity	Provides a tool to convert from Microsoft Full-Text Indexing Server to Verity Full-Text Indexing Server. All data that resides in Microsoft Full-Text catalogues will be migrated to Verity Collections with this tool.	OnBase: Requires Full-Text Indexing Server for Verity (VTIP11) and a valid Full-Text Indexing Client for Verity.
Full-Text Indexing Server for Microsoft	Provides advanced searches for words or phrases that exist within documents stored in OnBase. These words or phrases can exist in COLD documents, text renditions of image documents (OCRed images), and certain 3rd party application documents (Microsoft Word, WordPerfect, Microsoft Excel or Adobe PDF). Can perform searches using Boolean operators, inflectional searches (finding variations of a word) and searches combining full-text and keywords.	OnBase: Requires a valid Client license. Requires a valid Full-Text Indexing Client for Microsoft. 3rd Party: Requires NT Server 4.0 with Microsoft Index Server (NT Option Pack) and IE 4.0 or greater.
Full-Text Indexing Concurrent Client for Microsoft	Provides the ability to retrieve full-text data stored in an OnBase Full-Text database. Full-Text can index OCR images, COLD text documents, Adobe PDF documents, Microsoft Word documents, and Microsoft Excel documents.	OnBase: Requires a valid Client license. Requires Full-Text Indexing Server for Microsoft (FXIP11).
Full-Text Indexing Named User Client for Microsoft	Provides the ability to retrieve full-text data stored in an OnBase Full-Text database. Full-Text can index OCR images, COLD text documents, Adobe PDF documents, Microsoft Word documents, and Microsoft Excel documents. Valid for a single named user logged into one workstation at a time.	OnBase: Requires a Named User Client license. Requires Full-Text Indexing Server for Microsoft (FXIP11).
Full-Text Indexing Workstation Client for Microsoft	Provides the ability to retrieve full-text data stored in an OnBase Full-Text database. Full-Text can index OCR images, COLD text documents, Adobe PDF documents, Microsoft Word documents, and Microsoft Excel documents.	OnBase: Requires a Workstation Client license. Requires Full-Text Indexing Server for Microsoft (FXIP11).
CAD Services		
CAD Services		OnBase: Requires Desktop. Requires a valid Client license.
CAD Services Viewing Support	Provides a central repository for compound documents. Enables CAD compound document activities and functions. Features include import, drawing number reservation, and enhanced foldering. Necessary for Autodesk AutoCAD, SpatiaX, or other 3rd party CAD integrations.	Does not require CAD Services Clients for the compound document activities or if you own your own viewer. 3rd Party: For AutoCAD, requires Autodesk AutoCAD v 2004, v 2005, or v 2006. For SpatiaX, requires v 5.0.
CAD Services Concurrent Client - View Only	Provides the ability to utilize Spicer supported CAD file formats (excluding 3D) for viewing.	OnBase: Requires a valid Client license. Requires CAD Services license.
CAD Services Concurrent Client - View/Markup	Provides the ability to utilize Spicer supported CAD file formats (excluding 3D) for viewing and markup.	OnBase: Requires a valid Client license. Requires CAD Services license.
CAD Services Workstation Client - View Only	Provides the ability to utilize Spicer supported CAD file formats (excluding 3D) for viewing.	OnBase: Requires a valid Client license. Requires CAD Services license.
CAD Services Workstation Client - View/Markup	Provides the ability to utilize Spicer supported CAD file formats (excluding 3D) for viewing and markup.	OnBase: Requires a valid Client license. Requires CAD Services license.
E-MAIL	PRODUCT DESCRIPTION	ONBASE / 3RD PARTY REQUIREMENTS
Integration for Novell GroupWise	Allows a Novell GroupWise user to interact with an OnBase system through the familiar GroupWise client. Provides users the ability to save e-mails and/or any associated attachments directly into OnBase. Users can also retrieve documents from the interface.	OnBase: Requires a valid Client license. 3rd Party: Requires Novell GroupWise v 6.5.
Integration for IBM Lotus Notes	Allows an IBM Lotus Notes user to interact with an OnBase system through the familiar Lotus Notes client. Provides users the ability to save e-mails and/or any associated attachments by simply dragging the e-mail to the "OnBase" folder. Users can also retrieve documents from the interface.	OnBase: Requires a valid Client license. 3rd Party: Requires IBM Lotus Notes v 5.0.
Integration for Microsoft Outlook	Allows a Microsoft Outlook user to interact with an OnBase system through the familiar Outlook client. Provides users the ability to save e-mails and/or any associated attachments by simply dragging the e-mail to the "OnBase" folder. Users can also retrieve documents from the interface.	OnBase: Requires a valid Client license. 3rd Party: Requires Microsoft Outlook 2000.
E-mail Archive	E-mail Archive captures and stores all e-mail sent or received in a Microsoft Exchange or IBM Lotus Domino environment; utilizing the native message journaling capability. Users with the appropriate permissions can search for an e-mail correspondence in the archive based on metadata or perform a full-text search on content.	OnBase: Requires a valid Client license. 3rd Party: Microsoft Exchange 2003 SP1 or Microsoft Exchange 2000 SP3 August roll-up 2004. If using Lotus, Lotus Domino 6 or greater.
Subscription Server	Automatically indexes and stores e-mails and attachments as documents in the OnBase system based upon specific e-mail message characteristics. Subscription Server is most commonly used with a corporate e-mail account that is tied to a specific business process; drawing e-mail from user accounts, entire organizations, sites, or servers.	OnBase: Includes a Workstation Client license (CTIPW1). 3rd Party: Microsoft Exchange using Outlook 97 or greater using Microsoft Exchange v 5.0 or greater.
REPORTING	PRODUCT DESCRIPTION	ONBASE / 3RD PARTY REQUIREMENTS
Report Services	Provides the ability to closely monitor critical performance aspects of an OnBase implementation. Designed to be customizable to allow nearly any element within the OnBase system to be audited for business and IT statistics.	OnBase: Requires either a Concurrent or Named User Client license. 3rd Party: Requires installation of Microsoft .NET Framework on both the client workstation and the server.
Report Mining Integration for Datawatch Monarch	Allows for the easy extraction and analysis of data that is contained within COLD/ERM and PDF reports stored in OnBase. Business intelligence contained within existing reports can be tapped without IT involvement or re-keying data. Report extract formats include Microsoft Excel, among others.	OnBase: Requires a valid Client license. 3rd Party: Recommend v 5.0 or greater of Datawatch Monarch software.

Report Mining Integration for Datawatch Monarch RMS	<p>Allows for the easy extraction and analysis of data that is contained within COLD / ERM (text) reports stored in OnBase. Integrated with Monarch software by Datawatch, the business intelligence contained within existing reports can be tapped without IT involvement or re-keying of the data. Report extract formats include Excel, PDF, and text.</p>	<p>OnBase: Requires a valid Client license.</p> <p>3rd Party: Requires Monarch version 8 to create model files and provide report mining capabilities. Requires Monarch RMS version 4 to perform report mining in a web environment.</p>
Exception Reports	Creates reports that can identify missing or aged documents.	OnBase: Requires a valid Client license.
INTEGRATION	PRODUCT DESCRIPTION	ONBASE / 3RD PARTY REQUIREMENTS
Application Enabler		
Application Enabler (Annual)	<p>Provides image enabling to third-party software applications that are GUI, browser, or text-based.</p> <p>Due to the variety of applications, Solution Providers must verify that an application can be enabled prior to selling this module. As part of the verification, Solution Providers are also required to complete a pre-qualification form located on www.teamonbase.com. Please make no assumptions. If verification is unsuccessful, Hyland can be contacted for assistance.</p>	OnBase: Requires a valid Client license.
Enterprise Application Enabler (Annual)	<p>Provides image enabling to third-party software applications that are GUI, browser, or text-based.</p> <p>Due to the variety of applications, Solution Providers must verify that an application can be enabled prior to selling this module. As part of the verification, Solution Providers are also required to complete a pre-qualification form located on www.teamonbase.com. Please make no assumptions. If verification is unsuccessful, Hyland can be contacted for assistance.</p>	OnBase: Requires a valid Client license.
Application Enabler	<p>Provides image enabling to third-party software applications that are GUI, browser, or text-based.</p> <p>Provides any number of applications to be image-enabled within the enterprise.</p> <p>Due to the variety of applications, Solution Providers must verify that an application can be enabled prior to selling this module. As part of the verification, Solution Providers are also required to complete a pre-qualification form located on www.teamonbase.com. Please make no assumptions. If verification is unsuccessful, Hyland can be contacted for assistance.</p>	OnBase: Requires a valid Client license.
Enterprise Application Enabler		OnBase: Requires a valid Client license.
Host Enabler		
Host Enabler Concurrent Client	Provides image enabling for host applications.	<p>OnBase: Requires a valid Client license.</p> <p>Native Support: Provides connectivity to VT-100, VT-220 & ANSI terminal types.</p> <p>3rd Party: Requires the supported host emulator software (some limitations exist):</p> <ul style="list-style-type: none"> • NetManage Rumba v 5.2, 6.0 (2000) or 7.1 (for AS/400 – 5250, Mainframe – 3270 & UNIX) • IBM Client Access v 4.4 (for AS/400 – 5250) • WRQ Reflections v 8.0 (ReGIS Graphics version only) • Attachmate v 6.4 and 8 (v 8 requires installation of E-Vantage Enterprise Access Objects 3.0 on Client workstation)
Host Enabler Workstation Client	Provides image enabling for host applications.	<p>OnBase: Requires a valid Client license.</p> <p>Native Support: Provides connectivity to VT-100, VT-220 & ANSI terminal types.</p> <p>3rd Party: Requires the supported host emulator software. (some limitations exist):</p> <ul style="list-style-type: none"> • NetManage Rumba v 5.2, 6.0 (2000) or 7.1 (for AS/400 – 5250, Mainframe – 3270 & UNIX) • IBM Client Access v 4.4 (for AS/400 – 5250) • WRQ Reflections v 8.0 (ReGIS Graphics version only) • Attachmate v 6.4 and 8 (version 8 requires installation of E-Vantage Enterprise Access Objects 3.0 on Client workstation)
Application Programming Interfaces (API)		
Archival API	Provides the ability to archive documents from third party systems into the OnBase system.	OnBase: Requires a valid Client license.
Reverse API	Provides the ability for OnBase to retrieve information or documents from third party applications.	OnBase: Requires a valid Client license.

	Provides the ability to query for documents within the OnBase repository from third party applications.	OnBase: ASP.NET and other Web-based applications require a valid Web Server license (WTIPI1).
Query API (Initial 500 queries/hour) (Thick Client)	Note: This is NOT Web Server Client licensing.	The necessary query licenses must be purchased for each database desired to use this license.
	Provides the ability to query for documents within the OnBase repository from third party applications.	OnBase: ASP.NET and other Web-based applications require a valid Web Server license (WTIPI1).
Query API (Additional block of 500 queries/hour) (Thick Client)	Note: This is NOT Web Server Client licensing.	The necessary query licenses must be purchased for each database desired to use this license.
	Provides the ability to query for documents within the OnBase repository from third party applications.	OnBase: ASP.NET and other Web-based applications require a valid Web Server license (WTIPI1).
Query API (Initial 500 queries/hour) (Core)	Note: This is NOT Web Server Client licensing.	The necessary query licenses must be purchased for each database desired to use this license.
	Provides the ability to query for documents within the OnBase repository from third party applications.	OnBase: ASP.NET and other Web-based applications require a valid Web Server license (WTIPI1).
Query API (Additional block of 500 queries/hour) (Core)	Note: This is NOT Web Server Client licensing.	The necessary query licenses must be purchased for each database desired to use this license.
		OnBase: Requires the Web Server license (WTIPW1). Requires a valid Concurrent or Named Client license.
		3rd Party: Servers require Microsoft: Windows 2003 with IIS 6.x or Windows 2000 Server with IIS 5.x; .NET Framework 2.0, MSXML 3 SP7, MSXML 4 SP2, and Microsoft Runtime 8.0. Web Clients require Microsoft: Windows Vista, 2003, XP, or 2000; IE 6.0 SP1, MSXML 3 SP7 or higher.
Custom Web Indexing Platform	This framework allows an integrator to create a custom indexing component for the web, integrated with OnBase.	
		OnBase: In addition to the Web Services Toolkit license, the necessary Client licenses are required. These can either be: 1) the necessary block of Query API retrievals or 2) the necessary number of OnBase Clients at 120 queries per hour.
	Enables users to seamlessly extend OnBase solutions through a set of client side programmable interfaces. Key OnBase functionality can be attained via the flexibility and cross-platform accessibility of the Hyland XML Web Service using standard HTTP and SOAP protocols. Users can perform document queries and archival, execute Workflow tasks, modify keyword values, and more.	Requires the module license (e.g. Workflow) to expose the desired functionality through the Web Services Toolkit. Other requirements will depend on the specifications of the solution.
Web Services Toolkit	The Web Services includes the Archival API. Anyone desiring to upgrade from the Archival API to the Web Services Toolkit must pay the difference (\$5,000).	3rd Party: Requires Microsoft IIS 6.0, Microsoft .NET Framework 2.0, Microsoft MSXML 4.0. SP2 and MSXML 3.0 SP7, and Microsoft 2003 Server.
Security		
		OnBase: Thin Client configurations are supported. Thick Client and the Desktop are currently not supported.
Single Sign-On for Microsoft Active Directory Service	Allows OnBase to be configured to use authentication credentials from selected single sign-on service vendors. Single sign-on services centralize authentication and authorization across multiple applications.	3rd Party: Requires the appropriate Single Sign-On service.
		OnBase: Thin Client configurations are supported. Thick Client and the Desktop are currently not supported.
Single Sign-On for CA eTrust SiteMinder	Allows OnBase to be configured to use authentication credentials from selected single sign-on service vendors. Single sign-on services centralize authentication and authorization across multiple applications.	3rd Party: Requires the appropriate Single Sign-On service.
		OnBase: Thin Client configurations are supported. Thick Client and the Desktop are currently not supported.
Single Sign-On for IBM Tivoli Access Manager	Allows OnBase to be configured to use authentication credentials from selected single sign-on service vendors. Single sign-on services centralize authentication and authorization across multiple applications.	3rd Party: Requires the appropriate Single Sign-On service.
		OnBase: Thin Client configurations are supported. Thick Client and the Desktop are currently not supported.
Single Sign-On for Microsoft Passport	Allows OnBase to be configured to use authentication credentials from selected single sign-on service vendors. Single sign-on services centralize authentication and authorization across multiple applications.	3rd Party: Requires the appropriate Single Sign-On service.
		OnBase: Thin Client configurations are supported. Thick Client and the Desktop are currently not supported.
Single Sign-On for RSA Sign-On Manager	Allows OnBase to be configured to use authentication credentials from selected single sign-on service vendors. Single sign-on services centralize authentication and authorization across multiple applications.	3rd Party: Requires the appropriate Single Sign-On service.
		OnBase: Thin Client configurations are supported. Thick Client and the Desktop are currently not supported.
Single Sign-On for SAP Enterprise Portal 6.0	Allows OnBase to be configured to use authentication credentials from selected single sign-on service vendors. Single sign-on services centralize authentication and authorization across multiple applications.	3rd Party: Requires the appropriate Single Sign-On service.

		OnBase: Thin Client configurations are supported. Thick Client and the Desktop are currently not supported.
Single Sign-On for Custom Applications	Allows OnBase to be configured to use authentication credentials from selected single sign-on service vendors. Single sign-on services centralize authentication and authorization across multiple applications.	3rd Party: Requires the appropriate Single Sign-On service.
Single Sign-On for PeopleSoft Enterprise v.8	Allows OnBase to be configured to use authentication credentials from selected single sign-on service vendors. Single sign-on services centralize authentication and authorization across multiple applications.	OnBase: Thin Client configurations are supported. Thick Client and the Desktop are currently not supported.
DOCUMENT ACQUISITION INTEGRATIONS	PRODUCT DESCRIPTION	ONBASE / 3RD PARTY REQUIREMENTS
		OnBase: Includes a Named User Client.
Integration for OCR for AnyDoc	Allows documents and associated keyword values to be archived directly into OnBase as an integrated step in the OCR for AnyDoc document capture process.	3rd Party: Requires AnyDoc EXCHANGEit. Sold separately.
		OnBase: Includes a Concurrent Client license (CTIPC1). Requires E-Forms.
Integration for Cardiff LiquidOffice	Provides the ability to archive forms created in Cardiff LiquidOffice.	3rd Party: Requires v 2.1 of Cardiff LiquidOffice software.
		OnBase: Includes a Named User Client.
Integration for Cardiff TeleForm	Provides the ability to immediately make available image files of the forms that were exported to OnBase in a real-time fashion from TeleForm. Users will be able to use OnBase for retrieving, viewing, text searching, annotating, cross-referencing, revisioning, highlighting, printing, faxing and e-mailing documents online.	3rd Party: Requires v 8.1 of the Cardiff TeleForm. Sold separately.
		OnBase: Includes a Named User Client.
Integration for ReadSoft DOCUMENTS	Provides the ability to archive selected batches of forms and invoices generated by ReadSoft DOCUMENTS, while also providing retrieval access to other previously archived documents.	3rd Party: Requires ReadSoft DOCUMENTS software. Sold separately.
		OnBase: Includes a Named User Client.
Integration for Captiva InputAccel	Allows documents and associated keyword values to be archived directly into OnBase as an integrated step in the Input Accel document capture process.	3rd Party: Requires v 2.2 of Captiva InputAccel. Sold separately.
		OnBase: Includes a Named User Client.
Integration for Kofax Ascent Capture	Provides data capture, document capture and internet-based front-end capture solution for the OnBase system. OnBase archives image objects supplied by Ascent Capture within the specified document types assigned to each document class.	3rd Party: Requires v 5.5 of the Ascent Capture software. Sold separately.
Integration for eCopy ShareScan OP	Enables an organization to use a choice of supported eCopy networked scanners or digital copiers to capture document images from eCopy ShareScan OP and route them directly into the OnBase system. Contact eCopy for the most current list of supported devices.	3rd Party: Requires eCopy ShareScan OP 3.0 or higher. Requires an eCopy supported scanner or digital copier.
		OnBase: Includes a Named User Client.
Integration for AutoStore Route to OnBase	Provides the ability to archive documents into OnBase from any networked AutoStore enabled multifunction scan device. Using the OnBase route component, you can assign documents into OnBase document types or scan queues, assign OnBase keywords, and route the documents to one or more OnBase systems.	3rd Party: Requires AutoStore software. Sold separately.
		3rd Party: Requires Esker DeliveryWare 4.0. Requires Windows 2003 Server and .NET Framework 2.0.
Connector for Esker DeliveryWare	Allows users to utilize the OnBase repository for storing documents captured with Esker DeliveryWare by creating a Universal Output Connector to which Esker DeliveryWare can route business documents.	OnBase: Includes a Named User Client. Requires that the Facsimile Import Integration for RightFax software be installed on same machine as the OnBase Core Services of the same version.
		3rd Party: Requires v 8.5 of RightFax software.
Fax Import Integration for Captaris RightFax	Provides the ability to specify how fax documents are configured for automatic import into OnBase upon receipt at the RightFax Server.	3rd Party: Requires a Visioneer or Xerox scanner that supports OneTouch technology.
Integration for Visioneer OneTouch	Provides a low-end scanning solution integrated to the Visioneer OneTouch technology.	
Integration for the Fujitsu fi-6000 Network Scanner		
	Provides a complete solution for scanning documents across the internet, directly into a destination OnBase system. This provides a simple and easy to use touch screen interface that provides distributed scanning and indexing of critical business documents. Documents arrive at their intended destination faster and are already imaged and indexed.	3rd Party: Requires specially, configured Fujitsu fi-6000 Network Scanner(s) sold by Hyland Software.
Integration for the Fujitsu fi-6000 Network Scanner		
	Provides users with an intuitive, easy-to-use desktop scanner. The scanner features a large touch-screen display and a built-in US 101 keyboard creating a turn-key scanning solution in a compact footprint. This specially, configured scanner for OnBase is offered through Hyland Software.	OnBase: Requires the Integration for the Fujitsu fi-6000 Network Scanner. (NSIPW1)
Fujitsu fi-6000 Network Scanner	Maintenance service plan includes one (1) year replacement and/or depot repair for hardware (at Hyland facilities) as specified under the terms of the service agreement. This plan is available for up to three (3) years from the date of the original shipment. If the first and/or second year of maintenance is not purchased, and services are desired in the second and/or third years, any lapsed maintenance must be paid in full prior to receiving service for the then current year.	The Solution Provider discount is a flat \$250 per unit sold.
Maintenance Plan for the Fujitsu fi-6000 Network Scanner		Solution Provider discounts do not apply.
ERP INTEGRATIONS	PRODUCT DESCRIPTION	ONBASE / 3RD PARTY REQUIREMENTS
OnBase Connector for use with SAP ArchiveLink		

	<p>The HTTP Content Server interface allows an SAP system to perform content management functions against the OnBase system. Using this interface, SAP systems may use OnBase as its repository for storage and retrieval of archived documents.</p> <p>This base component is required in order to use:</p> <ul style="list-style-type: none"> • Bar Code Import for use with SAP ArchiveLink • Print List and Data Archive for use with SAP ArchiveLink • OLE Viewer for use with SAP ArchiveLink • Business Indexing Connector for use with SAP ArchiveLink 	<p>3rd Party: Windows 2000 Server or 2003 Server. Microsoft .NET Framework 2.0. SAP RFC library v 4.5 or greater. SAP SSF library v 4.5 or greater.</p>
Connector for use with SAP ArchiveLink		<p>OnBase: OnBase thick Client v 3.9 or greater.</p>
Bar Code Import for use with SAP ArchiveLink	<p>The BAPI (Bar Code) component of SAP ArchiveLink allows an OnBase scanning application to register scanned documents with SAP software.</p>	<p>3rd Party: SAP ArchiveLink v 4.5 or greater.</p>
Print List and Data Archive for use with SAP ArchiveLink	<p>Uses SAP ArchiveLink to import SAP ArchiveLink print lists, data archive files and imaging documents. Archiving data contained in the SAP system will reduce the storage requirements of the SAP system, improve response times and reduce the time to backup, recover and upgrade the SAP system.</p>	<p>3rd Party: Windows 2000 Server or 2003 Server. Microsoft .NET Framework 2.0. SAP RFC library v 4.5 or greater. SAP SSF library v 4.5 or greater.</p>
OLE Viewer for use with SAP ArchiveLink	<p>Used when the end user wants to work within the SAP software user interface, but wants to view and store documents via the OnBase OCX viewer.</p>	<p>3rd Party: SAP ArchiveLink v 4.5 or greater.</p>
Business Indexing Connector for use with SAP ArchiveLink	<p>Used to automatically index OnBase documents in OnBase that have been related to business objects in a SAP system. This makes it possible to use OnBase to search for the documents related to any business object in a SAP system. This module also keeps the keywords on documents in OnBase synchronized with the SAP system.</p>	<p>OnBase: OnBase Client v 3.9 or greater. OnBase Connector for use with SAP ArchiveLink.</p> <p>3rd Party: Microsoft Windows 2000 Server or 2003 Server. Microsoft .NET Framework 2.0. SAP ArchiveLink v 4.5 or greater. SAP RFC Library v 4.5 or greater.</p>
Other ERP Integrations		
Integration for Oracle E-Business Suite	<p>Provides users seamless access to supporting documents from the Oracle E-Business Suite application. The integration also provides automated indexing by linking the document repository with the Oracle database schema.</p>	<p>OnBase: Requires Web Server.</p> <p>3rd Party: Requires the Oracle E-Business Suite 11i or greater. Tested Oracle E-Business Suite applications include:</p> <ul style="list-style-type: none"> • Advanced Procurement (specifically Purchasing) • Financials (specifically Payables and Receivables) • Human Resources Management <p>Please contact Hyland Software for further validation of Oracle E-Business Suite applications prior to sale. Please make no assumptions.</p>
Dual Window Indexer for PeopleSoft v.8	<p>Provides the ability to do image-based posting of invoices to PeopleSoft v 8 and requires no additional data entry to store documents to OnBase.</p>	<p>OnBase: Requires a valid Client license.</p>
STATEMENTS		
	PRODUCT DESCRIPTION	ONBASE / 3RD PARTY REQUIREMENTS
Image Statements	<p>Prints primary documents (usually statements) with supporting documents in a batch process or on an ad hoc basis. The number of statements processed in a month determines the required licensing.</p> <p>Example: Customer purchases 15,000 statements. The first 10,000 statements cost \$1.50 each. The next 5,000 statements cost \$1.00 each. Future licenses purchased by Customer begin at the discount where their last purchase was made.</p>	<p>OnBase: Requires a valid Client license.</p>
OMR Marks Generator	<p>Custom DLL to generate OMR marks for automatic mail stuffing machinery to be used with the OnBase Image Statements module.</p>	<p>OnBase: Requires the OnBase Image Statements module (ISIPix).</p>
Document Distribution	<p>Automatically delivers previously rendered Image Statements electronically to designated recipients via fax, e-mail, CD or web presentment.</p>	<p>OnBase: Requires Image Statement license (ISIPix). CD Publishing distribution requires:</p> <ul style="list-style-type: none"> • Automated CD Authoring, Export and Publishing (AAIPW1, EXIPC1, PBIA11) <p>3rd Party: Fax distribution requires WinFax Pro (v 8.0). E-mail distribution requires Microsoft Exchange Server. URL notification distribution requires Web Server (WTIPW1) and Microsoft Exchange Server. CD Publishing distribution requires:</p> <ul style="list-style-type: none"> • Rimage PC unit and software • Sybase SQL Anywhere restricted run-time database license • Sybase SQL Anywhere standalone database (Sybase SQL Anywhere v 5.504, 7.x or 8.x are supported). <p>Sold in blocks of 250 with a minimum initial purchase of 4 blocks (1,000).</p> <p>To determine price: Recipients x \$4.00 = Price</p> <p>Note: Price is not a monthly fee or annual fee. The formula determines the perpetual cost of the license.</p>
Statement Composition	<p>Provides customers the ability to create better looking, more functional and customer data-specific statements. Through a point-and-click, menu-driven configuration, the user defines what data to include, the data layout and formatting options, and graphical elements-logos, pictures, charts and messaging.</p>	<p>OnBase: Requires a COLD/ERM license (CLIPW1). Includes the Archival API.</p>

RECORDS MANAGEMENT	PRODUCT DESCRIPTION	ONBASE / 3RD PARTY REQUIREMENTS
Document Retention	Manages the retention and disposition of stored documents according to pre-defined business rules, typically involving the passage of time or the occurrence of an event allowing for automatic destruction and/or removal from the OnBase document repository.	OnBase: Requires a valid Client license. Customers desiring to upgrade from Document Retention (DRIP11) to Records Management (RIIP11) will be charged an additional \$10,000 to upgrade.
Physical Records Management	Enables organizations to manage the tracking, locating and access of physical records using OnBase as the single interface. Manages the retention, disposition, and destruction of managed record folders according to an organization's business rules, based on the occurrence of an event in accordance with external regulations or compliance laws.	OnBase: Requires a valid Client license. Thick Client users require OnBase v 3.9. Thin Client users require OnBase v 4.3.9 to access viewer-only functionality. The Document Retention module is optional for implementing retention and/or disposition plans for physical records.
Records Management	This includes Document Retention (DRIP11).	OnBase: Requires a valid Client license.
STORAGE AND EXPORT	PRODUCT DESCRIPTION	ONBASE / 3RD PARTY REQUIREMENTS
Distributed Disk Services	Regulates public access to a server through middleware software that acts as a proxy for accessing Disk Groups. Because communications with the OnBase Client are handled through TCP/IP, administrators are not required to use Windows Shares or UNC paths for Disk Group access.	OnBase: Requires a valid Client license. 3rd Party: Supports distributed Disk Group storage on Windows 2000/2003 Server, RedHat Linux 9 or Enterprise ES.
Storage Integration for EMC Centera	Provides the ability to configure secondary OnBase Disk Group copies to store files to the Centera platform as an alternative to standard UNC paths.	OnBase: Requires a valid Client license. 3rd party: Requires EMC Centera SDK v 2.1 or 2.3SP2.
Storage Integration for IBM Tivoli	Provides the ability to configure secondary OnBase Disk Group copies to store files to the Tivoli platform (using standard file servers or the TotalStorage DR550 hardware) as an alternative to standard UNC paths.	OnBase: Requires a valid Client license. 3rd Party: Requires IBM Tivoli v 5.2 and 5.3.
CD Authoring	Provides the ability to utilize CD-R storage for data backups or document exporting/publishing.	OnBase: Requires a valid Client license. Minimum hardware requirements: Please visit www.teamonbase.com .
DVD Authoring	Provides the ability to utilize DVD storage for data backups or document exporting/publishing.	OnBase: Requires a valid Client license. Minimum hardware requirements: Please visit www.teamonbase.com .
Automated CD Authoring	Provides the ability to automatically create backup CD-Rs from OnBase using the Rimage system.	OnBase: Includes a Workstation Client license (CTIPW1). 3rd Party: Rimage PC Unit and software required. Minimum hardware requirements: Please visit www.teamonbase.com .
Automated DVD Authoring	Provides the ability to automatically create backup DVDs or from OnBase using the Rimage system.	OnBase: Includes a Workstation Client (CTIPW1). 3rd Party: Rimage PC Unit and software required. Minimum hardware requirements: Please visit www.teamonbase.com .
Automated CD/DVD Publishing	Extends Export/Publishing to a "lights-out" operation. Instead of having people dedicated to launching Export or Publishing jobs directly through the Client, they can now define the jobs in advance and have the OnBase system produce CD-R or DVD output for them at pre-determined intervals throughout the year. A "publishing order" means one set of Document Types published to a CD/DVD for a particular institution. The number of CD/DVDs created per year for an institution is not relevant. (For example, twelve monthly CDs or DVDs sent to an institution, each containing the same set of document types, would constitute one order).	OnBase: Requires a valid Client license. Requires Automated CD or DVD Authoring (AAIPW1 or AVIPW1), Export (EXIPC1) and Publishing (PBIAl1). 3rd Party: Rimage PC Unit and software required. Requires matching versions of the Sybase SQL Anywhere Standalone and Runtime database products (v 5.5, 7.x, 8.x or 9).
Publishing	Allows an end user to distribute OnBase runtime units in order to retrieve exported OnBase documents, creating a self-contained OnBase system for distribution. This is a renewable annual license.	OnBase: Requires a valid Client license. Requires Export (EXIPC1). If Publishing to CD-R or DVD, requires the respective Authoring module (CDIPW1 or DVIPW1). 3rd Party: Requires matching versions of the Sybase SQL Anywhere Standalone and Runtime database products (v 5.5, 7.x, 8.x or 9).

Aggregate Publishing	<p>Allows customers receiving published CDs/DVDs to have a database that contains index/pointer information for multiple published CDs/DVDs. When they receive a new published CD/DVD, they will update the aggregate database with the new index/pointer information.</p> <p>In order to properly license the above scenarios, the company that produces the published CD/DVD will have to acquire an Aggregate Publishing license for each customer that takes advantage of this functionality.</p>	<p>OnBase: Requires a valid Client license. Requires Export (EXIPC1). Requires Publishing (PBIA1). Can be deployed with Automated CD Publishing (ADIPC1).</p> <p>3rd Party: Requires matching versions of the Sybase SQL Anywhere Standalone and Runtime database products (v 5.5, 7.x, 8.x or 9).</p>
Multilingual Publishing	Provides users of Publishing the add-on ability to create published CDs or DVDs with the configured system attributes that are able to be translated (Document Type Groups, Document Types, Keyword Types, etc.) and installed in either the native system language or an alternative language.	<p>OnBase: Requires Export and Publishing and the requirements of those licenses.</p>
Encrypted CD/DVD Publishing	Allows users to produce a CD/DVD with encrypted contents. This eliminates the ability for someone to casually browse the document files or database that comes on the media.	<p>OnBase: Requires Export and Publishing and the requirements of those licenses. Requires either CD or DVD Authoring or Automated CD or DVD Authoring (for Rimage) or Automated CD/DVD Authoring for Condre. Will work in conjunction with Document Distribution using CD/DVD Publishing and Automated CD/DVD Publishing. These licenses are sold separately.</p> <p>3rd Party: When used with Rimage or Condre, requires the respective software and hardware for those solutions.</p>
Export	Exports documents and their respective indexes out of an OnBase system. These documents and indexes can be imported into another OnBase system or used in conjunction with the OnBase Publishing module.	<p>OnBase: Requires a valid Client license. If Exporting to CD-R or DVD, requires the respective Authoring module (CDIPW1 or DVIPW1).</p> <p>3rd Party: Requires Sybase SQL Anywhere Standalone v 5.5, 7.x, 8.x or 9.</p>
Plasmon UDO Archive Appliances		
For Plasmon Pricing, please see the Supplement on teamonbase.com.		
COMPLIANCE FRAMEWORK	PRODUCT DESCRIPTION	ONBASE / 3RD PARTY REQUIREMENTS
Compliance Framework Template	The Compliance Framework Template is for existing OnBase customers who may already have several components of the Compliance Framework bundle, or are existing WorkView customers.	<p>OnBase: Requires WorkView Server (RMIP1). Requires One WorkView Named User Client license (RMIPN1) or Concurrent Client license (RMIPC1) per user. (These items must be purchased separately).</p>
GOVERNMENT	PRODUCT DESCRIPTION	ONBASE / 3RD PARTY REQUIREMENTS
Integration for Azteca Cityworks	Offers a seamless integration with Cityworks providing users ECM capabilities within the Cityworks product. Features include the ability to associate documents to a Cityworks object, view the associated documents, execute an ad-hoc query and archive new Cityworks related documents directly into OnBase.	<p>OnBase: Requires valid Client licenses.</p> <p>3rd Party: Requires Azteca Cityworks.</p>
Integration for FTR Limited TheRecord	Allows digital recording files and associated annotations and notes that have been captured using FTR software to be archived into OnBase for retrieval and viewing.	<p>OnBase: Supports the thick Client only.</p> <p>3rd Party: Requires FTR Limited TheRecord Player.</p>
Public Sector Constituency Web Access	Provides constituents of a particular government agency web-based document viewing. Standard Client functionality will be restricted. This license is only for use by constituents in the public sector market. This license can NOT be used by any employee of any agency or anyone on that agency's internal network. Standard Client licenses must be purchased for agency employees. This license is required for each instance of an OnBase database within the agency.	<p>OnBase: Requires a Web Server license.</p>
Municipality Licensing		
Municipality Licensing Bundle	<p>Provides limited ECM functionality to public sector municipalities with populations of less than 250,000.</p> <p>Modules comprising the bundle include:</p> <ul style="list-style-type: none"> • Multi-User Server (1) • Web Server (1) • EDM Services (1) • Application Enabler (single application) (1) • Desktop Document Imaging (> 30 ppm) (1) • CD Authoring (1) 	
Municipality Concurrent Client	<p>Provides retrieval, viewing, printing, and management of documents.</p> <p>Concurrent Clients have a minimum connection (lease) time of five (5) minutes.</p> <p>Both a thick or thin Client can use this license.</p>	
Municipality Workflow Concurrent Client SL	Provides electronic document routing through a configurable work process. Includes pre-configured rules, actions, transitions, and notifications and additional capabilities for Visual Basic scripts. Provides access to Workflow functions in order to perform work and complete tasks on documents. Includes E-Forms.	
HIGHER EDUCATION	PRODUCT DESCRIPTION	ONBASE / 3RD PARTY REQUIREMENTS
Transcript Reader	Provides the ability for University/Collegiate transcripts to be scanned and OCR'd using the Paradatec OCR engine (purchased separately).	<p>3rd Party: Requires the purchase of Paradatec Prosar OCR Engine. (Sold Separately)</p> <p>Sold in blocks of 1,000 Transcripts.</p>
SERVICE BUREAU	PRODUCT DESCRIPTION	ONBASE / 3RD PARTY REQUIREMENTS

OnBase:
A service bureau must have a Service Bureau Customer License for each institution having data processed by the service bureau. This applies whether the service bureau processes the customers' data into the same database or separate databases.

For all other modules, the service bureau and its customers are treated as a single institution.

A service bureau can maintain the OnBase Client tier structure across customers, but cannot use the same Client license in multiple databases.

Workstation based licenses can be licensed across multiple workstations.

The service bureau must maintain at least one OnBase Certified Installer on staff or annual maintenance costs will be calculated at 21%.

OnBase Solution Providers that also function as a service bureau do not receive their discount on modules licensed for service bureau work.

3rd Party:
Requires a supported SQL DBMS.

Provides entities that are in the business of processing documents for their clients the ability to process, store and present documents to its clients.

Please make sure to read the definition of a service bureau in the "Definitions" section of this document.

Service Bureau License

MAINTENANCE

OnBase Annual Maintenance

PRODUCT DESCRIPTION

ONBASE / 3RD PARTY REQUIREMENTS

Entitles the customer to:

- All upgrades and enhancements of the licensed modules of the software commercially released by Hyland to its end users generally during the term of the Software Maintenance Agreement. If no Software Maintenance Agreement is purchased and remains in force, upgrades and enhancements are available only if the licensee pays the full license fees then in effect for the upgraded or enhanced modules.
- Error corrections (fixes correcting any non-conformity of the software to the description of functionality set forth in current documentation published by Hyland.
- Access to the Solution Provider's telephone help desk. In addition, in the case of emergency situations only that arise outside of the Solution Provider's regular support hours, the customer may call Hyland's telephone help desk on a 24 -7 basis via pager and Hyland's technical support paging system.

Hyland Software charges a 10% maintenance reinstatement fee for any lapse in maintenance. (That means 10% of the annual maintenance fee from the last paid maintenance renewal year). This is in addition to paying maintenance for the lapse period. If a Solution Provider does not maintain two (2) full-time OnBase Certified Installers on staff, Hyland Software reserves the right to provide primary support and bill the full maintenance amount directly to the end user. 18% of the then current list price for all licensed modules

Annual Maintenance

SERVICES

Hyland Software Services

PRODUCT DESCRIPTION

ONBASE / 3RD PARTY REQUIREMENTS

Installation

Hyland will provide services to Customer in the implementation of OnBase software: Creating the software database, licensing of all modules purchased, installing of the software, configuration of the OnBase solution, training of Customer's OnBase administrator on configuration and use of the software and purchased modules.

To qualify for these services, dates of service must be ordered and scheduled in advance on a single purchase order and must be supported by a similar purchase order from the end user to the Solution Provider.

Consulting

Professional consulting services include: business process analysis, Workflow implementation, WorkView implementation, and consultation services.

Requires a written development agreement with Hyland. By default, Hyland Software, Inc. retains full ownership and rights to any software developed.

Database Services

Hyland will evaluate Customer database, server hardware, relevant system, O/S and database server settings, and make performance and/or capacity recommendations for optimizing performance of the OnBase system.

To qualify for these services, dates of service must be ordered and scheduled in advance on a single purchase order and must be supported by a similar purchase order from the end user to the Solution Provider.

Software Development

Consulting (CSG)

Professional consulting services include: application requirements definition, application development, pre-processor development, WorkView data import, API script development, and API consultation services.

Upgrade Services

Hyland will perform upgrade for the end user to the current release version of the OnBase application. Upgrade services include Thick Client Upgrade and all Core Services Applications. Extent of services will be determined based upon type of service selected, Onsite or Remote. Customer must be current with maintenance. All hardware specific to current release of the OnBase application should be completed.

Hyland provides project management services that direct, coordinate and support successful implementation of OnBase solutions on an as needed basis, consistent with an agreed upon project plan. The assigned project manager may work from either the customer site or from Hyland's corporate campus as indicated by customer and project requirements. Project management services can be expanded to address customer business and IT consulting needs. Services are provided on a daily fee basis with a requirement that the customer engage two or more days of services per week, on a mutually determined schedule.

Daily Project Management Services

ONBASE EDUCATION TRAINING FOR CUSTOMERS

PRODUCT DESCRIPTION

ONBASE / 3RD PARTY REQUIREMENTS

The System Administration course is designed to introduce new and existing system administrators to the use, maintenance, and administration of OnBase. The class provides in-depth, hands-on experience based on using actual business scenarios. The class also investigates technical support processes, effective maintenance strategies, online documentation and other resources available to OnBase system administrators.

Duration: 5 days

It is highly recommended that students must have an OnBase solution implementation for at least one (1) month. Students must successfully complete the Pre-Installation Web-based Training course.

System Administration

Advanced System Administration	<p>The Advanced System Administrator class provides students with a detailed understanding of the general system structure as well as the process for creating an effective disaster recovery plan. Special emphasis will be on identifying problematic components of a system as well as detailing a strategy for modifying and upgrading OnBase. Additionally, students learn about additional modules and how they can be leveraged in an existing installation.</p> <p>Duration: 5 days</p>	Students must successfully complete the System Administration class.
	<p>This four-hour, online, instructor-led course will explore the changes in OnBase and how they directly impact system administration as well as the new features and best practices for administration. The class will also interactively explore areas of OnBase functionality and how they can be used to resolve user and organizational needs. Upon successfully completing this course, any individual who was or is an OnBase Certified System Administrator will have their certification status updated for two years.</p>	Students must have achieved OCSA status. It does not need to be current for them to attend this session.
Upgrading OnBase Certified System Administrator - Online	<p>The Workflow Administration course is designed to introduce system administrators to the creation, modification, and administration of OnBase Workflow implementations. The class provides in-depth, hands-on experience based on actual, completed implementations. Training scenarios require students to employ multiple functions within their Workflow designs from the complete set available.</p> <p>Duration: 5 days</p>	Students registering for this class must have attended and passed the System Administrator class.
Workflow Administration	<p>The Workflow Design course provides attendees with a review of the business discovery process and strategies for translating business requirements into Workflow functionality. The class will require students to filter provided information and create Workflow solutions that accomplish organizational goals.</p> <p>Duration: 5 days</p>	Students must successfully complete the Workflow Administration class.
Workflow Design	<p>The End User OnBase Client course is designed to prepare attendees for the use of the OnBase thick or web Client for basic retrieval and document interaction. Additional time will be spent performing retrievals using text searching, as well as the creation and viewing of document notes. E-mail and printing of documents will also be covered.</p> <p>Duration: 2 hours per session</p>	Students should have access to an OnBase implementation after attending the course to ensure that they will be able to immediately utilize the knowledge they obtain from the class.
End User OnBase Client	<p>The Web Server / Application Enabler Administration course is designed to teach students administration techniques for the OnBase Web Server and Application Enabler. The course will also cover security and data storage modifications for the Web Server in addition to appropriate troubleshooting techniques. The course also covers essential Application Enabler configuration and installation techniques. The class will culminate in a practical implementation of an OnBase solution incorporating the Web Server, Application Enabler, and the OnBase Desktop.</p> <p>Duration: 5 days</p>	Students must have successfully completed the System Administration class.
Web Server / Application Enabler Administration	<p>The WorkView Implementation course is designed to teach students the architecture and configuration techniques for OnBase WorkView. A critical component of the course is the functional requirements discovery process and its associated documentation, which is unique to OnBase WorkView application development. Students are given multiple examples of OnBase WorkView applications as references for use in future design and development projects.</p> <p>Duration: 5 days</p>	Students must have successfully completed the System Administration class.
WorkView Implementation	<p>Hyland Software can create a training course geared towards the technical needs of individuals who are not pursuing one of the available OnBase certifications. The Customer will be responsible for any additional content generation and course preparation as well as travel and expenses for the technical staff necessary for the course. All Custom Customer Training courses must be reviewed and approved by the Manager of Education Services prior to booking.</p>	The prerequisites for the custom course will vary based on the course content and technical skills required.
Custom Customer Training		
TRAVEL AND EXPENSES	PRODUCT DESCRIPTION	ONBASE / 3RD PARTY REQUIREMENTS
Estimated Travel and Expenses	This can be used to include estimated travel and expenses for the Solution Provider or for Hyland if Hyland is performing the services.	If Hyland is performing the services, please contact Hyland for a quote.
ONBASE DATA VALIDATION & DISASTER RECOVERY SERVICES	PRODUCT DESCRIPTION	ONBASE / 3RD PARTY REQUIREMENTS
OnBase DB Validation Service	Validation of OnBase database backup. Service includes restoration of database from backup media and validation that all database components are present and not defective. An electronic report of the results is provided at completion of validation. Customer's backup media is returned at completion of validation. Price quote is for database size of 20 GB or less. Incremental fee for each additional 20 GB. Media is returned to customer once service is completed.	
OnBase Disk Group Validation and CD or DVD Media	Validation of disk group copy. An electronic report of the results is provided at completion of validation. Media is returned to customer once service is completed.	
BackStop Emergency On Site Recovery Service	Provides assistance for on-site restoration. Service is performed at customer site by a Hyland Software technician. Includes up to 5 days on site support.

NOTES: Minimum of one year LSAP must be purchased for new system.

* VAR price at net cost is valid only for VARs with current LSAP.

** Model numbers under Laserfiche Software Assurance Plan (LSAP) ending with P indicates 'Priority LSAP'. Those ending with D indicates 'Diamond LSAP', which is only available thru Laserfiche certified diamond support partners for expedited queuing.

- Records Management Edition includes Advanced Audit Trail.
- Laserfiche Records Management edition for Microsoft SQL is DoD 5015.2 Certified. This supports MS SQL Server 2000.
For our certified system configurations, please visit <http://jtc.fhu.disa.mil/recmgt/Laserfiche/rmv7/index.html>.
- Laserfiche Oracle supports Oracle 9 and 10.
- Laserfiche 6.x supports both MS SQL 7 and 2000. Laserfiche 7 supports MS SQL 2000.
- Records management module only applies to Laserfiche 7.0.
- Laserfiche Executive (A40) and Plus plug-in (97840) can be purchased separately in lieu of this product.
- Email plug-in licenses must match the total number of Full user and Retrieval user licenses.
- Snapshot licenses must match the total number of Full user licenses.
- Web Access allows users to make changes to the repository; thus, it makes use of full user licenses.
- WebLink is a read-only retrieval viewer and makes use of retrieval user licenses.
- Workflow (Model # WFS) includes 10 workflow users with Full user license being sold separately.
- Workflow user licenses must match Full user licenses.
- Teamwork can only run on Laserfiche Team Servers.
- Teamwork user licenses must match Full user licenses.
- Agenda Manager comes with unlimited general users, 5 publisher users (AMPL), and 5 meeting types (AMA).
- Agenda Manager additional meeting type comes with 1 publisher user (AMPL).
- No credit will be given for components of QF-C1 when QF-C1 is purchased.
- Integrator's Toolkit orders must have company authorization before shipment of product.
- It is recommended to purchase installation and configuration services (PSGGIS) with Integration Express-GIS. It is required that you have the knowledge of Visual Basic when performing this configuration yourself.

UPGRADE POLICY:

Software : 100% credit to the original product with current LSAP. A minimum charge of 10% of the new product is required for the upgrade.

LSAP: 100% credit to the original product, prorated for the remaining time. A minimum charge of 10% of the new product s required for the upgrade.

One year of LSAP must be purchased when upgrading.

Updates on June 14, 2006 price list version:

- Added notes on Integration Express-GIS and added new product codes for its professional service fee.

Updates on Dec. 12, 2006 price list version:

- Added Agenda Processor.
- Added Teamwork.

LEGATO GLOBAL SERVICES

LEGATO's service and support organization is a global network of teams with expertise across our broad offering of business solutions. Our organization consists of individuals with years of industry experience and knowledge that works together to provide you with the responsive software service and support your business needs require. Please contact your local Support Sales & Renewal Representative for all support renewal requirements.

Technical Support Services

LEGATO offers annual Maintenance Plans that include unlimited software technical support, major and minor software updates, software patches and service releases for LEGATO Content Management Solutions. A maintenance agreement must be maintained in order to receive software updates. If an end user has allowed their maintenance agreement to lapse for less than one year, the list price to reinstate maintenance will be nineteen (19%) percent of software list price. Where an end user has allowed their maintenance agreement to lapse for one year or longer, the list price to reinstate maintenance will be twenty-eight (28%) percent of software list price.

*Note: The support anniversary date will commence upon receipt of purchase order or credit card (NOT based on activation date) for a period of 12 months. In order to receive major and minor updates to the software, customers should maintain a current maintenance agreement that includes software updates and technical support for the XtenderSolutions. Support is required for the first license unit and all supplementary license units.

Software Updates and Technical Support for the Content Management solutions except ArchiveXtender Solutions				
Plan Type	Coverage	Support Calls	Software Updates	List Price
Standard Support x-x-MS	6:00 A.M. EST to 8:30 P.M. EST Monday-Friday	Unlimited during coverage	Patches, Major and Minor Releases Included	19% of software list price
Premium Support x-x-MP	24 X 7 (US Domestic)	Unlimited	Patches, Major and Minor Releases Included	25% of software list price

Software Updates and Technical Support for ArchiveXtender Solutions only				
Plan Type	Coverage	Support Calls	Software Updates	List Price
Standard Support x-x-MS	8:00 A.M. EST to 8:00 P.M. EST Monday-Friday	Unlimited during coverage	Patches and Service Releases Included *40% off Major Updates*	19% of software list price

Example Technical Support for ArchiveXtender:

ArchiveXtender (ARCX-NTxxx-y-MS)

ArchiveXtender – Jukeman Edition (ARCX-JNTxxx-y-MS)

ArchiveXtender – Ascent Storage Edition (ARCX-ASCNTxxx-y-MS)

where xxx = media type (ROM/CDR/DVR/RAM/MO)

where y = level (a, b, c, d, etc...)

*Note: Premium Support for Content Management is only available in North America.
